

Local Government Executives from Sweden Study Tour – May 2012

The City of Novi is a host city to local government executives from Sweden participating in a study tour in North America. The group will be visiting Novi, Ann Arbor, and Detroit before travelling to Toronto, Ontario. The study tour is the capstone to a year-long leadership development program through PriceWaterhouseCooper. The contingent is staying in Novi for four days. A similar group came to Novi in 2011; the experience was beneficial enough that they are returning, a first for the program.

List of Participants
