**REVIEW STANDARDS  
DIMENSIONAL VARIANCE**

**Jeff & Rebecca Laurie  
185 Maudlin ,Novi**

The Zoning Board of Appeals (ZBA) will review the application package and determine if the proposed Dimensional Variance meets the required standards for approval. In the space below, and on additional paper if necessary, explain how the proposed project meets each of the following standards. (Increased costs associated with complying with the Zoning Ordinance will not be considered a basis for granting a Dimensional Variance.)

**Standard #1. Circumstances or Physical Conditions.**

Explain the circumstances or physical conditions that apply to the property that do not apply generally to other properties in the same zoning district or in the general vicinity. Circumstances or physical conditions may include:

- a. Shape of Lot.** Exceptional narrowness, shallowness or shape of a specific property in existence on the effective date of the Zoning Ordinance or amendment.

Not Applicable       Applicable

If applicable, describe below:

We currently have a existing covered deck on the rear of house.  
The deck currently is in poor condition and eye soar. We are looking to replace with larger covered deck that is up to code and will remain more than three feet from property line. This will be a benefit to home and neighborhood. This will allow out family to utilize our property in a reasonable & comfortable manner.

**and/or**

- b. Environmental Conditions.** Exceptional topographic or environmental conditions or other extraordinary situations on the land, building or structure.

Not Applicable       Applicable

If applicable, describe below:

**and/or**

- c. Abutting Property.** The use or development of the property immediately adjacent to the subject property would prohibit the literal enforcement of the requirements of the Zoning Ordinance or would involve significant practical difficulties.

Not Applicable       Applicable

If applicable, describe below:

## **Standard #2. Not Self-Created.**

Describe the immediate practical difficulty causing the need for the Dimensional Variance, that the need for the requested variance is not the result of actions of the property owner or previous property owners (i.e., is not self-created).

We currently have a existing covered deck on the rear of house. The deck currently is in poor condition and eye soar. We are looking to replace with larger covered deck up to code and will remain more than three feet from property line. This will be a benefit to home and neighborhood. This will allow our family to utilize our property in a reasonable & comfortable manner.

## **Standard #3. Strict Compliance.**

Explain how the Dimensional Variance in strict compliance with regulations governing area, setback, frontage, height, bulk, density or other dimensional requirements will unreasonably prevent the property owner from using the property for a permitted purpose, or will render conformity with those regulations unnecessarily burdensome.

My house does not conform to set back limitation enforced by the city. This would make it where I would to be able to utilize my back for anytime of family enjoyment.

## **Standard #4. Minimum Variance Necessary.**

Explain how the Dimensional Variance requested is the minimum variance necessary to do substantial justice to the applicant as well as to other property owners in the district.

I'm looking for 3 foot minimum to from deck structure to property line. This will allow fence and property line to maintain with out any hindrance.

## **Standard #5. Adverse Impact on Surrounding Area.**

Explain how the Dimensional Variance will not cause an adverse impact on surrounding property, property values, or the use and enjoyment of property in the neighborhood or zoning district.

This will only be seen by one neighbor behind my home. This has been approved by homeowner behind me. Replacing the current will make the structure and enhance appearance of house. This is benefits the neighbors and homes surrounding.
