

## ENGINEERING DEPARTMENT

### CONSTRUCTION INSPECTION FEE SCHEDULE

Inspection Category	Fee Basis										
A. Sanitary Sewer	<p>The following fee basis is applied to the estimated construction costs of <u>each</u> of the inspection categories A through D, <u>individually</u>:</p> <table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center; width: 40%;"><b>Total Estimated Construction Cost for Inspection Category</b></th> <th style="text-align: center;"><b>Fee Computation for Each Inspection Category (A-D)</b></th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">\$1 to \$50,000</td> <td>11.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$2,050)</i></td> </tr> <tr> <td style="text-align: center;">\$50,001 to \$100,000</td> <td>9.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$5,250)</i></td> </tr> <tr> <td style="text-align: center;">\$100,001 to \$300,000</td> <td>6.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$8,250)</i></td> </tr> <tr> <td style="text-align: center;">\$300,001 +</td> <td>4.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$19,000)</i></td> </tr> </tbody> </table>	<b>Total Estimated Construction Cost for Inspection Category</b>	<b>Fee Computation for Each Inspection Category (A-D)</b>	\$1 to \$50,000	11.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$2,050)</i>	\$50,001 to \$100,000	9.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$5,250)</i>	\$100,001 to \$300,000	6.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$8,250)</i>	\$300,001 +	4.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$19,000)</i>
<b>Total Estimated Construction Cost for Inspection Category</b>		<b>Fee Computation for Each Inspection Category (A-D)</b>									
\$1 to \$50,000		11.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$2,050)</i>									
\$50,001 to \$100,000		9.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$5,250)</i>									
\$100,001 to \$300,000		6.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$8,250)</i>									
\$300,001 +	4.0% of the estimated construction cost of the inspection category as approved by Engineering <i>(minimum fee \$19,000)</i>										
B. Storm Sewer											
C. Water Main											
D. Paving & Curbing in Right-of-way											
E. Grading, Sidewalks, Paving, and Miscellaneous Work (outside of right-of-way)	2.5% of the estimated construction cost of inspection category E as approved by Engineering										
F. Storm Water Detention Facilities	2.5% of the estimated construction cost of the inspection category F as approved by Engineering										
G. Record Drawing Preparation Fee (prepared by the City)	2.5% of total estimated construction costs of inspection categories A through D above <i>(minimum fee \$2,000)</i>										

**A 10% administrative charge will be assessed on all construction inspection fees**
