SEMCOG 2050 Regional Development Forecast

Presentation to SEMCOG Executive Committee February 24, 2023

Recent economic changes

- Pandemic
- Deep recession
- Rapid recovery
- Labor market liftoff
- Over heating
- Excess demand meets constrained supply
- Persistent inflation
- The new normal
- Is the new normal really normal?

Purpose of Regional Forecast

To Understand Southeast Michigan's future

- Economy, Labor Force, and Industry Diversification
- Demographics, Shift in Population Dynamics (age, gender, race)
- Households by Lifecycle (size, children, workers)

The Base for Regional and Local Planning

- Spans 30 years into the future for infrastructure planning
- Provides additional data, such as household vehicle availability
- Knowing where households and jobs will locate helps us understand where to plan future infrastructure improvements

2050 Regional Forecast Key Messages

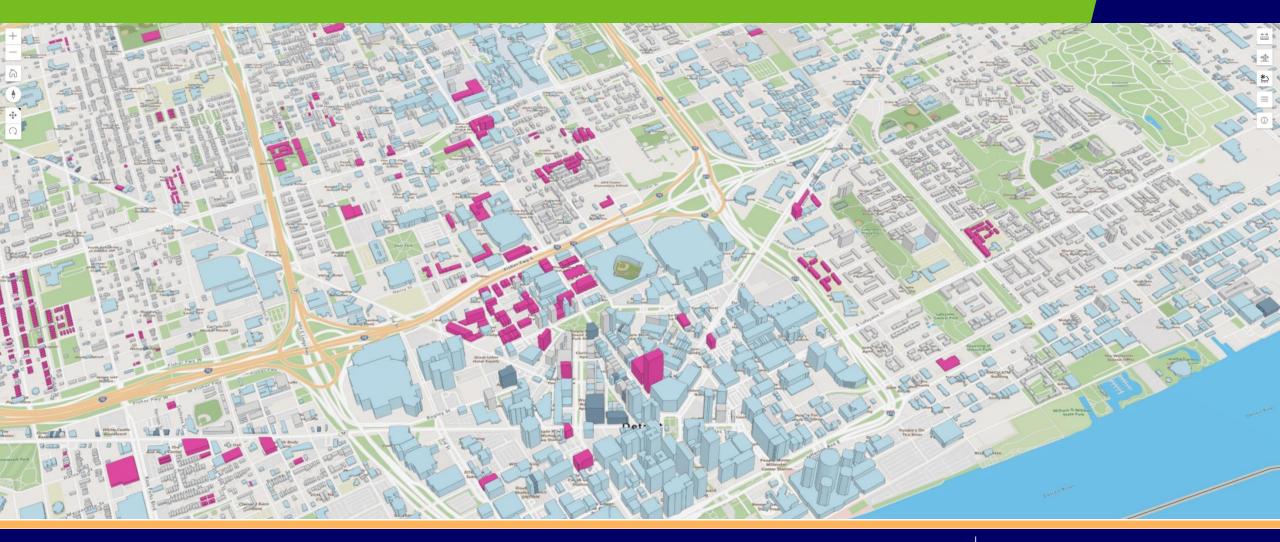

- Modest growth in the next 30 years:
 - Population: +315,000, or 6.4%
 - Employment: +265,000, or 9.0%
 - Labor force: +169,000, or 7.0%
- Aging population leads to labor shortage
- Alternative forecasts show:
 - Downside risk of reduced immigration
 - Auto manufacturing critically important
 - Continue to diversify economy
 - Leverage strength in knowledge-based industries

Capturing planned development

Trainica development covers mat 15 years of a forecas

Planned Development in Southeast Michigan

Developing the Local Forecast

- Collect data on person, household, and job characteristics from national and state data sets (e.g., U.S. Census, Data Axle)
- Add local data on the current and planned development of land parcels and buildings (e.g., Site Plans, Master Plans)
- Add data on travel characteristics, access to core services, and other development drivers
- Add data on environmental constraints (e.g., flood prone areas, wetlands, underground storage tanks)
- Input the data into an urban simulation model named UrbanSim

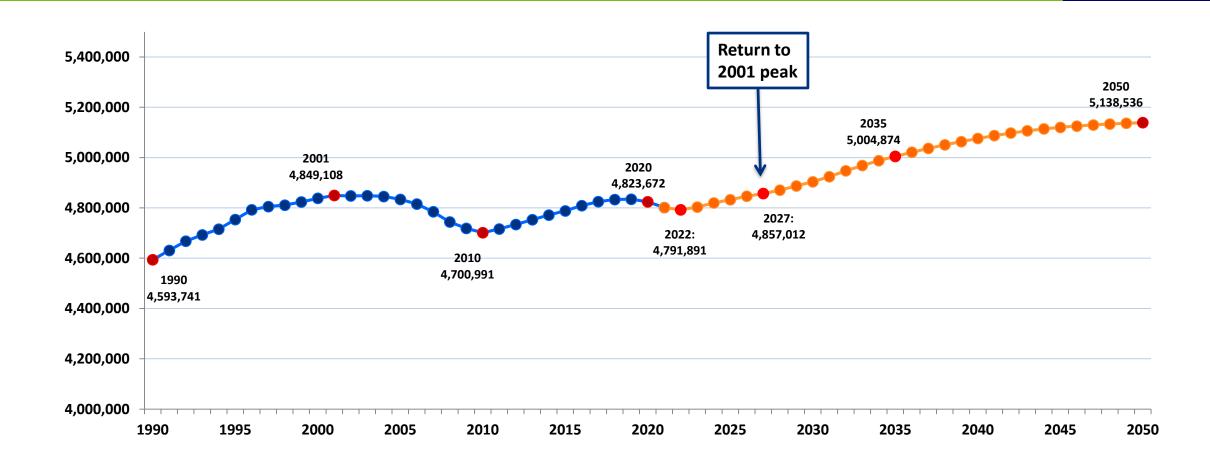

2050 Forecast Community Stakeholder's Meetings

- Three stakeholder meetings were held the week of January 9th, 2023.
- Meetings were hosted by our members Brownstown Twp, Green Oak Twp, and Sterling Heights.
- Draft community forecast was presented to nearly 100 community stakeholders.
- The draft was also emailed to each community
- Communities had until the end of January to provide comments and feedback on the draft

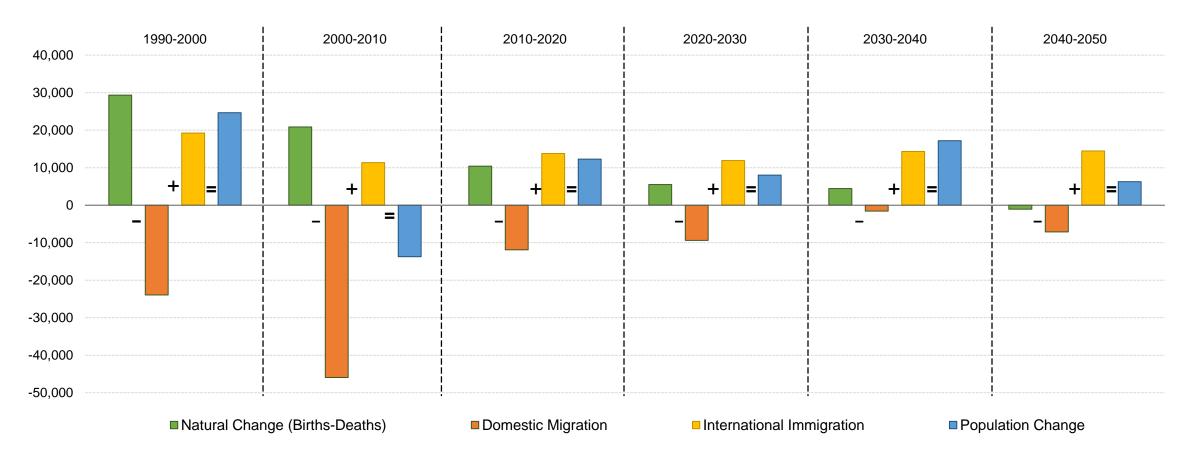

Demographic Forecast

Modest Population Growth

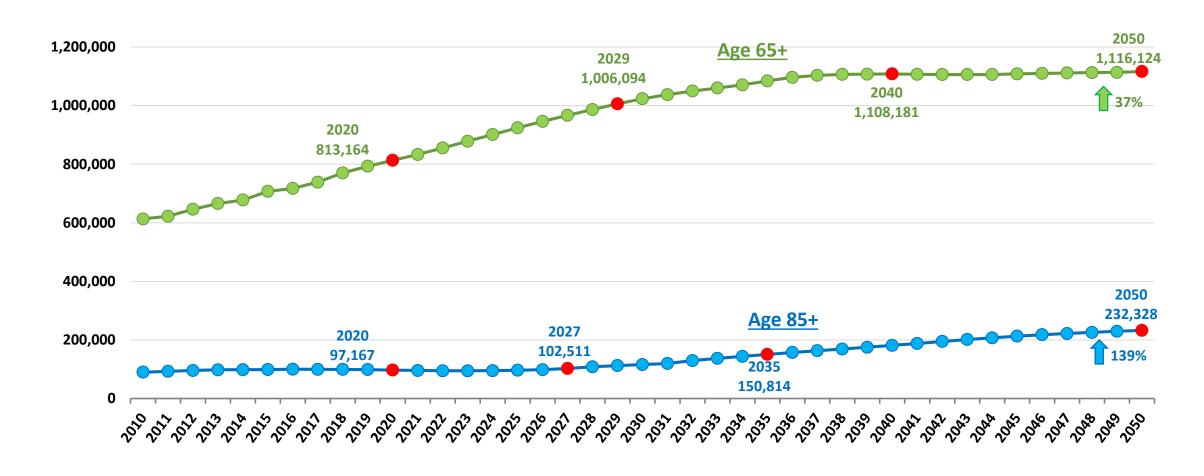

Demographic Components Driving Population Growth

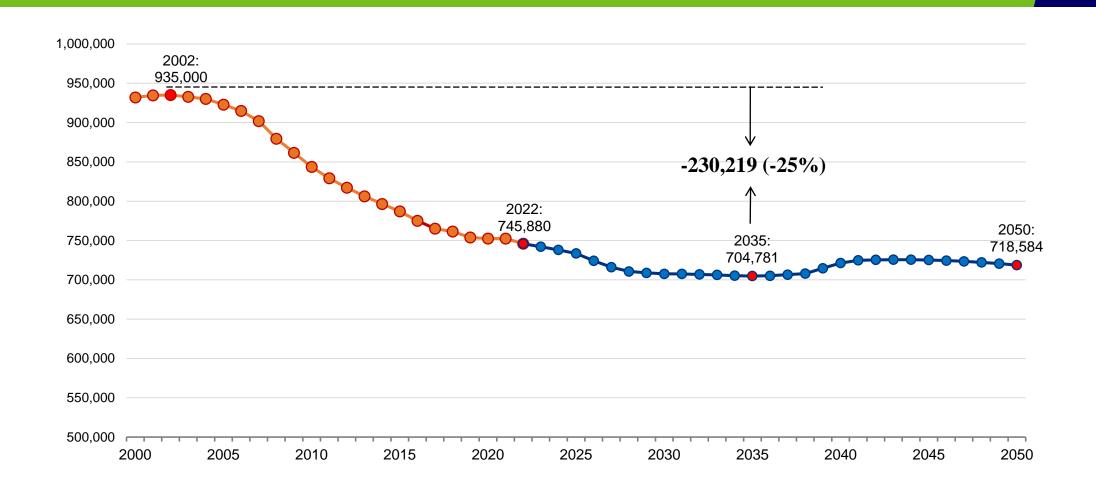

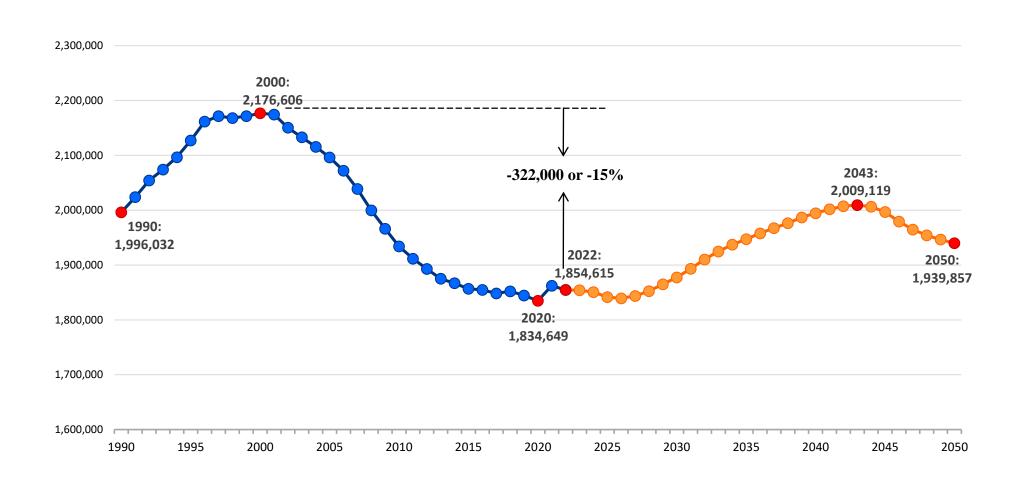

Rapid Growth of Senior Population

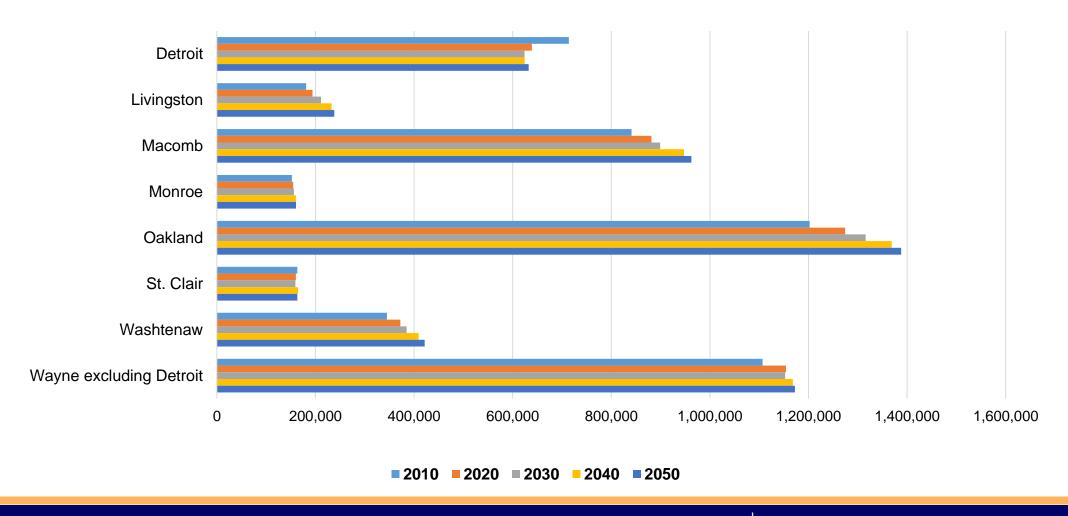

Declining School Age Population (Ages 5-17)

Reduced Working Age Population (Ages 25-54)

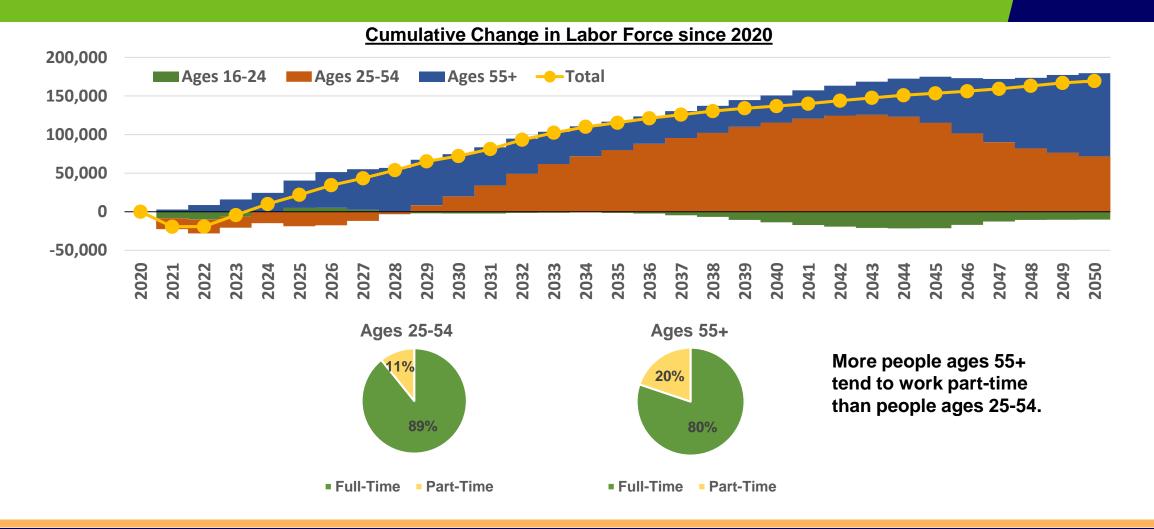

Population by County and City of Detroit, 2010-2050

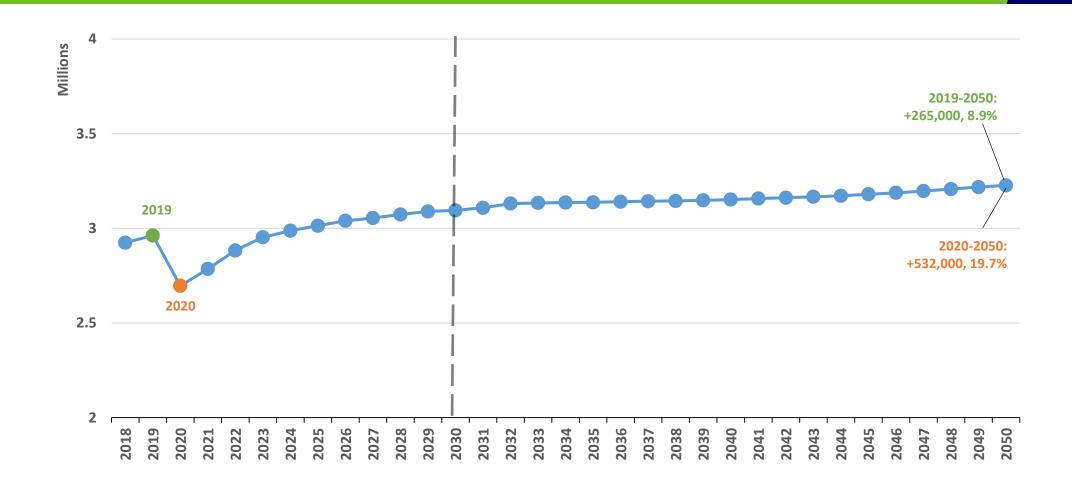

Employment Forecast

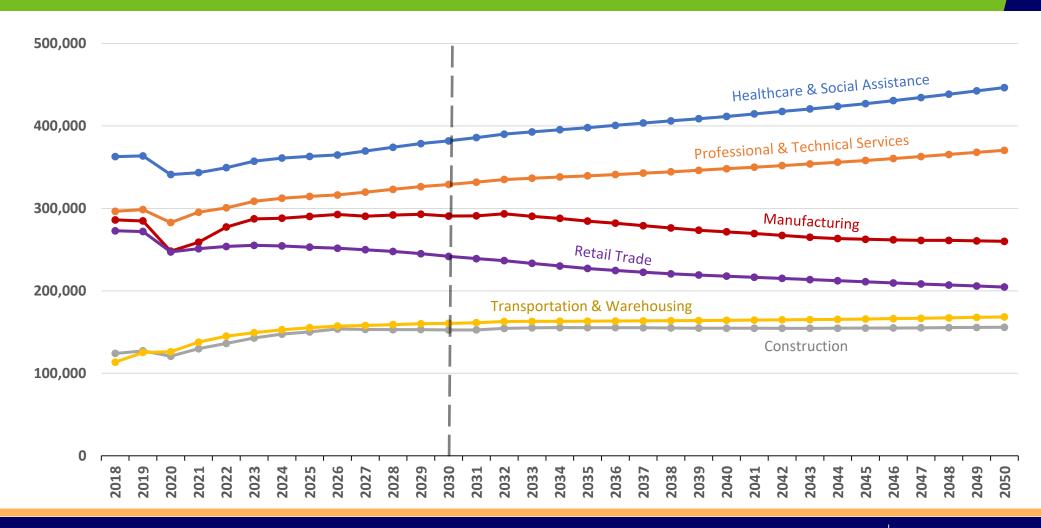

Labor Shortages (Especially for Full-Time Jobs)

Total Employment Growth

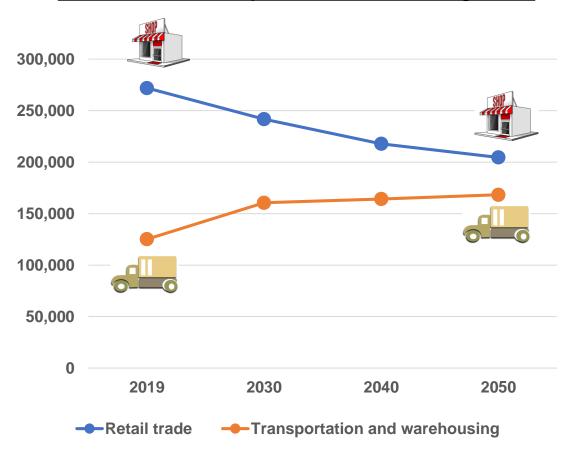

Employment by Major Job Sector

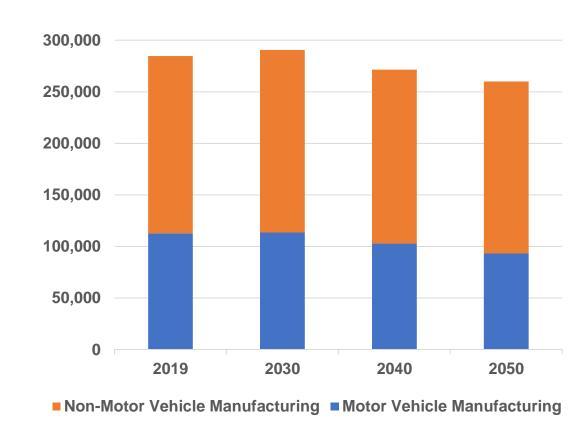

Shifts in Employment Sectors

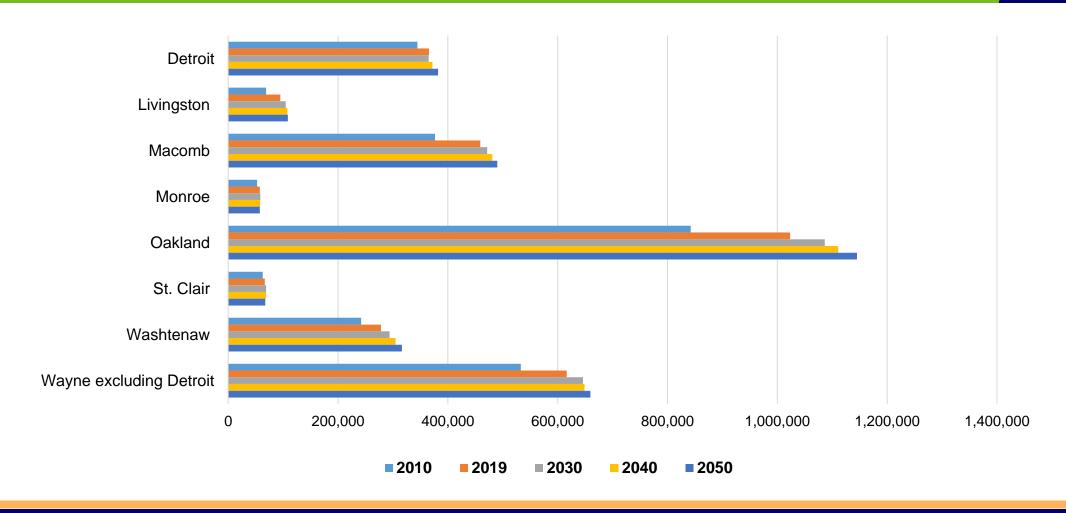

Manufacturing Jobs are Steady Through 2030, then Decline

Employment by County and City of Detroit, 2010-2050
