

ATTENTION BUILDERS

DUMPSTERS

Pursuant to Code Section 16-84 of the Novi Code of Ordinances, a person who owns, controls, or is in possession of a construction site or building site shall be required to provide a dumpster on that site immediately following backfill and prior to rough inspection. There will be no exceptions to this requirement. In the case of two contiguous lots under the same ownership and simultaneous construction, one dumpster sized to contain the debris from both lots will be permitted.

As the permit holder, it is your responsibility to have all litter and debris placed within the required receptacle and to keep all construction materials within the confines of the lot under construction.
