

CITY OF NOVI CITY COUNCIL
APRIL 11, 2022

SUBJECT: Approval to purchase radio equipment and accessories for the Novi Police and Fire Departments through Motorola for \$128,929.75, the approved vendor for Oakland County, for the P25 Radio Replacement Project.

SUBMITTING DEPARTMENT: Public Safety – Police & Fire Departments

EXPENDITURE REQUIRED	\$102,729.75 Police <u>\$ 26,200.00 Fire</u> \$128,929.75 Total
AMOUNT BUDGETED	\$102,800 Police <u>\$ 26,430 Fire</u> \$129,230 Total
APPROPRIATION REQUIRED	\$0
LINE ITEM NUMBER	101-301.00-852.002 Police 101-337.00-852.002 Fire

BACKGROUND INFORMATION:

Included in the 2021-22 Police and Fire Department Budgets is the purchase of radio equipment and accessories for the P25 Radio Replacement Project. In January 2020, the Oakland County Radio Oversight Committee met to discuss the County contract with Motorola regarding the P25 Radio Replacement Project. The current Open Sky radio system, utilized by all Oakland County Police and Fire Departments, is near end of life and will soon be replaced by the Oakland County P25 radio system. The City of Novi is scheduled to switch over to the new system in early 2023.

Project 25 is a suite of standards for digital mobile radio communications designed for use by public safety organizations in North America. P25 radios are a direct replacement for analog UHF radios, but add the ability to transfer data as well as voice, allowing for more natural implementations of encryption and text messaging. This

project will involve the replacement of the Open Sky radio system currently in use by Oakland County Police and Fire Department dispatch centers, and will include all police and fire mobile and portable radios, and all related accessories including belt holsters, chargers, shoulder mics, and batteries.

Although the equipment offered by Oakland County will replace the majority of our current radio equipment additional equipment is required to ensure the proper coverage by both the Police and Fire Departments.

RECOMMENDED ACTION: Approval to purchase radio equipment and accessories for the Novi Police and Fire Departments through Motorola for \$128,929.75, the approved vendor for Oakland County, for the P25 Radio Replacement Project.

MEMORANDUM

TO: ERICK ZINSER, CHIEF OF POLICE / DIRECTOR OF PUBLIC SAFETY
FROM: ALAN PATTERSON, COMMUNICATIONS MANAGER
SUBJECT: RADIO EQUIPMENT PURCHASE
DATE: MARCH 22, 2022

In January 2020, the Oakland County Radio Oversight Committee met to discuss the County contract with Motorola regarding the P25 Radio Replacement Project. The current Open Sky radio system, utilized by all Oakland County Police and Fire Departments, is near end of life and will soon be replaced by the Oakland County P-25 radio system. The City of Novi is scheduled to switch over to the new system in early 2023. This project will involve the replacement of the Open Sky radio system, all police and fire mobile and portable radios, and all related accessories including belt holsters, chargers, shoulder mics, and batteries.

Although the equipment provided by Oakland County will replace the majority of our current radio equipment and accessories, it does not address replacement of the following:

- Spare portable radios for use when an officer's radio is in need of repair. We currently maintain approximately six spare portable radios for this purpose.
- Multi battery bank chargers used by both the Police and Fire Departments. Currently, the FD has a multi-bank charger at each station (4), while the PD utilizes three multi-bank chargers.
- Seven desktop radios located at the police department front desk, the Sergeant's office, the squad room, two at the EOC, and the Lieutenant's office
- One desktop radio to be installed at Station Five.
- Two mobile radios for the Fire Department. These are needed as spares for fire vehicles when a radio is out for repair.
- Two mobile radios for the Police Department. These are needed as spares for patrol vehicles when a radio is out for repair.
- Programming of all new desktop, mobile and prep radios.

In September 2020, I submitted a budget recommendation to purchase the additional equipment. Since the installation of new equipment and the go live date were more than two years out however, the equipment was not initially purchased. The changeover date is now approximately one year away, and the new P25 radio main radio has now been installed in the Novi Police Dispatch Center. Since the initial quote for additional equipment, Motorola has instituted price increases. This new pricing is reflected here.

1. Six police portable APX6000 radios	\$38,199.00
2. Three police multi-unit battery chargers	\$2,958.75
3. Six police desk top radios	\$44,510.40
4. Two police mobile radios (spares)	\$14,331.60
5. Programming & Install of police radios	\$2,730
Total Police Equipment:	\$102,729.75

1. Four fire multi-unit battery chargers	\$3,945.00
2. Two fire mobile radios	\$14,331.60
3. One fire desk top radio	\$7,418.40
4. Programming & Install of fire radios	\$505.00
Total Fire Equipment:	\$26,200.00

Total: **\$128,929.75**

In addition to the equipment costs, all police and fire radios will require additional programming through Oakland County as part of the State system. This fee is \$250 per radio.

Oakland County programming of all police and fire radios (17) **\$4,250**

Total cost of equipment and additional programming: **\$133,179.75**

If approved, I would recommend immediate purchase of this equipment since there is an estimated lead time of six months or more for shipping/delivery/programming.
