CONCRETE REPLACEMENT WORK AT GRAND RIVER AVE./BECK RD. INTERSECTION IN NOVI STARTS NOV. 17; EXPECT LANE CLOSURES AND TURNING RESTRICTIONS

Beverly Hills, MI— The Road Commission for Oakland County (RCOC) expects to conduct concrete replacement work at the Grand River Avenue/Beck Road intersection in Novi from Tuesday, Nov. 17, through late November.

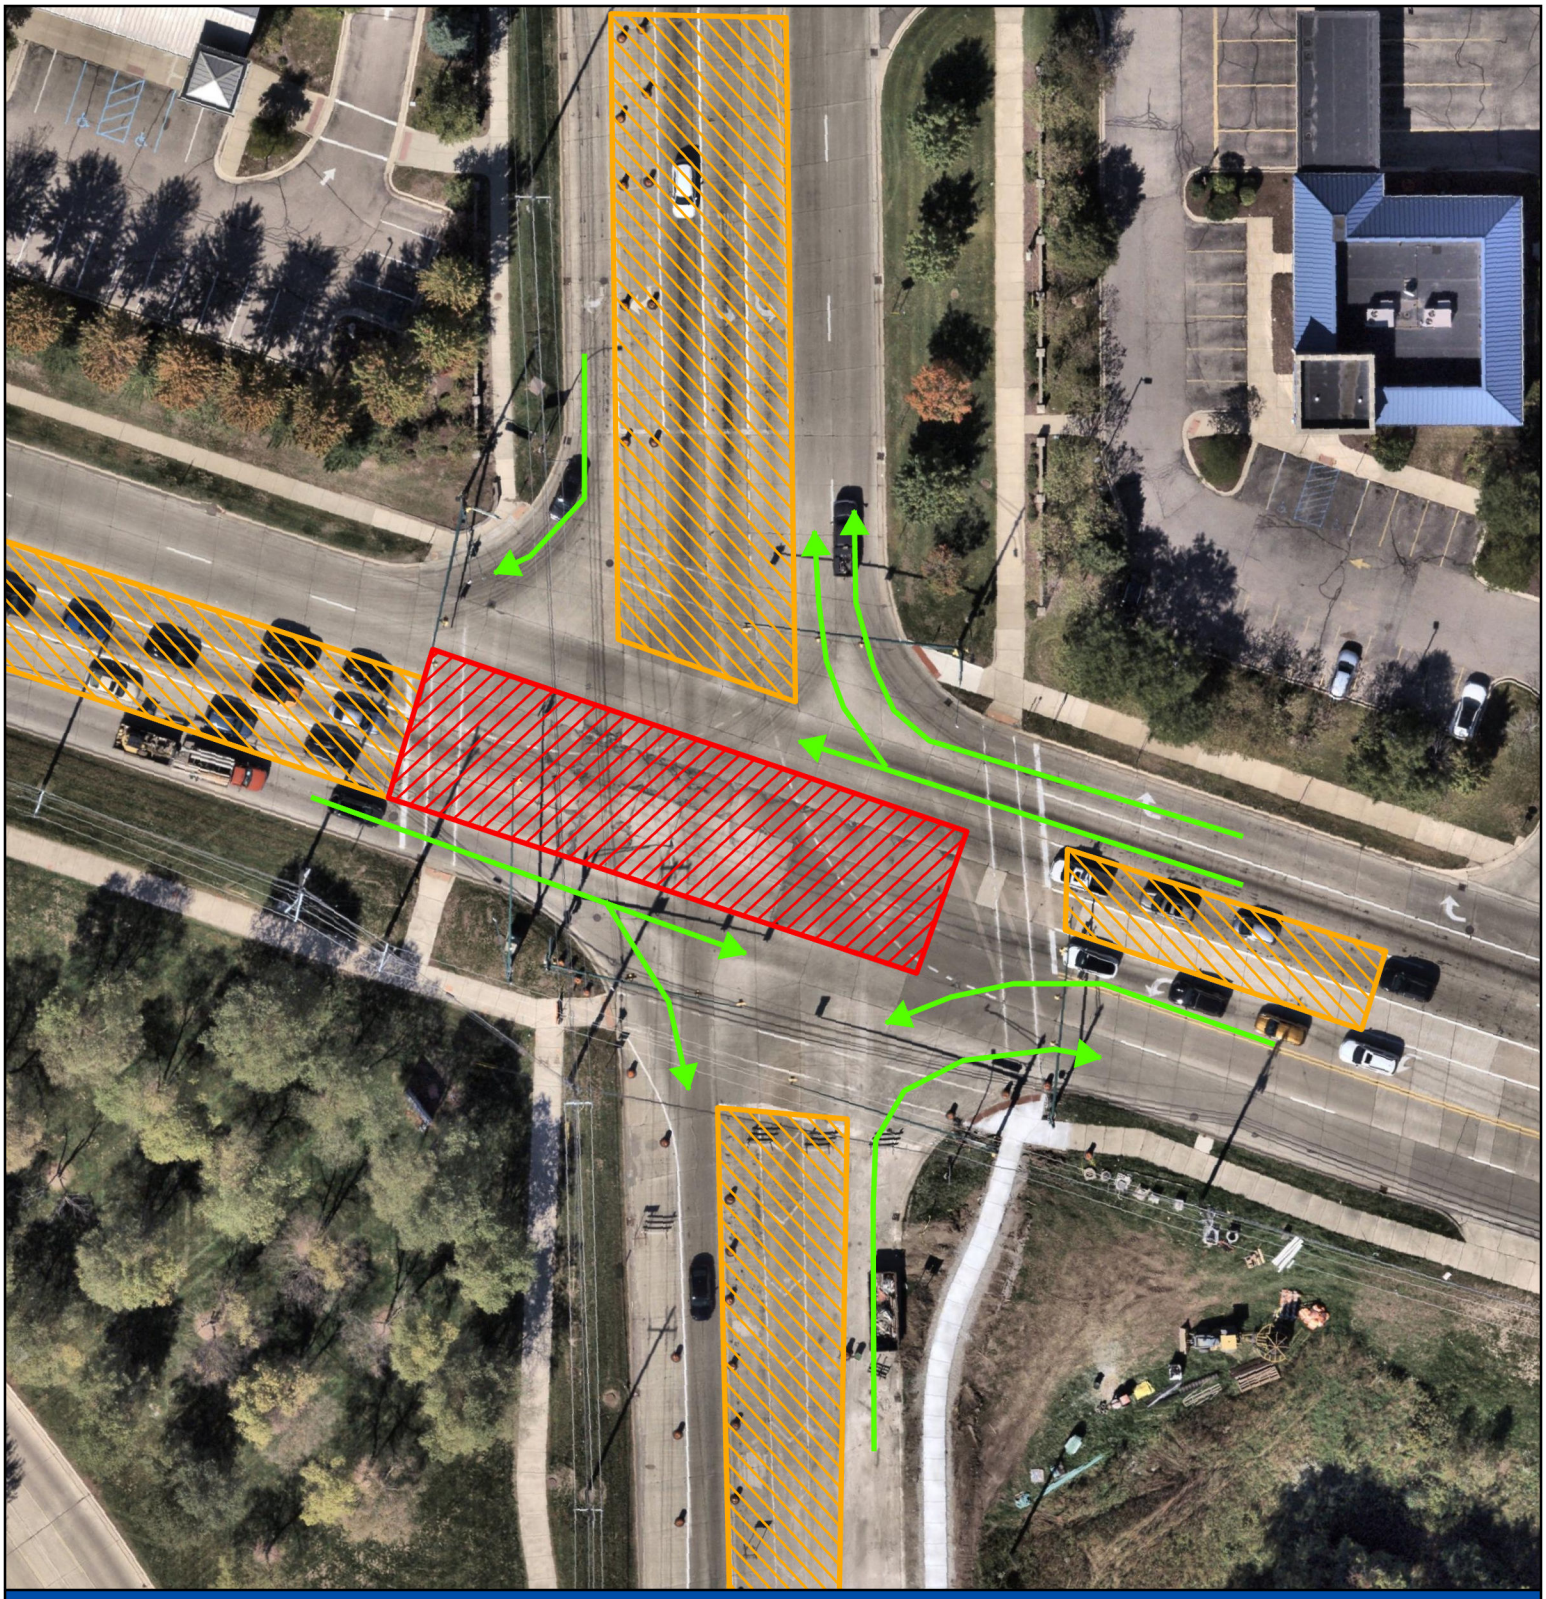

During the work, eastbound and westbound traffic will be maintained on Grand River Avenue. However, eastbound Grand River Avenue traffic will be prohibited from turning left onto northbound Beck Road.

Northbound and southbound Beck Road traffic will be unable to travel through the Grand River Avenue intersection. Beck Road traffic will be able to turn right onto either eastbound or westbound Grand River Avenue, but all left turns from northbound and southbound Beck Road onto Grand River Avenue will be prohibited.

Great Lakes Contracting Solutions of Waterford Township is the contractor for the project.

The Grand River Avenue/Beck Road intersection carries approximately 55,060 vehicles daily.

--- # # # ---

RCOC controlled intersection and contracted work to remove and replace the existing concrete, as identified. Both NB and SB Beck Road movements in the intersection are limited to right turns only at Grand River.

East/West movements on Grand River will have at least one lane available at all times during construction. No left turns allowed for EB Grand River to NB Beck Road. The detour for this movement and access to I-96 will be to continue east on Grand River to NB Novi Road.
