ZONING BOARD OF APPEALS STAFF REPORT

FOR: City of Novi Zoning Board of Appeals

MEETING DATE: August 11, 2026

REGARDING: 43570 West Oaks Drive # 50-22-15-200-113 (PZ26-0038)

BY: Alan Hall, Deputy Director Community Development

I. GENERAL INFORMATION:

Applicant

Ross Dress for Less

Variance Type

Sign Variance

Property Characteristics

Zoning District: This property is zoned Regional Center (RC)

Location: north of Twelve Mile Road, west of Novi Road

Parcel #: 50-22-15-200-113

Request

The applicant is requesting a variance from the City of Novi Sign Ordinance Section 28-5(b)(1) b. to allow a 258 sq. ft. illuminated wall sign (181.5 sq. ft. permitted by code, variance of 76.5 sq. ft.)

II. STAFF COMMENTS:

The applicant is seeking a sign variance to increase the allowable size of an illuminated wall sign by 77 SF [181.5 SF allowed at this site, 258.5 SF proposed]

Window graphics are not part of this request.

III. RECOMMENDATION:

The Zoning Board of Appeals may take one of the following actions:

I move that we grant the variance in Case No. PZ26-0038 sought by _____,
for _____ because Petitioner has shown practical difficulty including
_____ requiring _____ on the basis of any of the following:

- a. That the request is based upon circumstances or features that are exceptional and unique to the property and do not result from conditions that exist generally in the city or that are self-created including _____.
- b. That the failure to grant relief will unreasonably prevent or limit the use of the property and will result in substantially more than mere inconvenience or inability to attain a higher economic or financial return because _____.
- c. That the grant of relief would be offset by other improvements or actions, such as increased setbacks or increased landscaping, such that the net effect will result in an improvement of the property or the project _____.
- d. That construction of a conforming sign would require the removal or significant alteration of natural features on the property because _____.
- e. The grant of relief will not result in a use or structure that is incompatible with or unreasonably interferes with adjacent or surrounding properties, will result in substantial justice being done to both the applicant and adjacent or surrounding properties, and is not inconsistent with the spirit and intent of this chapter because _____.

The variance granted is subject to:

- 1. _____.
- 2. _____.
- 3. _____.
- 4. _____.

REVIEW STANDARDS SIGN VARIANCE

The Zoning Board of Appeals (ZBA) will review the application package and determine if the proposed Sign Variance meets the required standards for approval. In the space below, and on additional paper if necessary, explain how the proposed project meets each of the following standards. (Increased costs associated with complying with the Zoning Ordinance will not be considered a basis for granting a Sign Variance.)

Standard #1. Extraordinary Circumstances or Conditions.

Explain how the circumstances or physical conditions applying to the property that do not apply generally to other properties in the same Zone District or in the general vicinity. Circumstances or physical conditions may include:

- a. Shape of Lot.** A sign could not be placed in the location required by the Zoning Ordinance due to the shape, topography or other physical conditions of the lot or due to the location of an existing structure.

☐ Not Applicable

☐ Applicable

If applicable, describe below:

and/or

- b. Environmental Conditions.** A sign could not be placed in the location required by the Zoning Ordinance without removing or severely altering natural features, such as trees, topography, drainage courses or encroaching upon stormwater facilities.

☐ Not Applicable

☐ Applicable

If applicable, describe below:

and/or

- c. Abutting Property.** A sign could not be reasonably seen by passing motorists due to the configuration of existing buildings, trees, signs or other obstructions on an abutting property.

☐ Not Applicable

☐ Applicable

If applicable, describe below:

- d. Scale of Building or Lot Frontage.** A sign that exceeds permitted dimensions for area and/or height could be considered appropriate in scale due to the length of the building frontage (wall sign only) or length of the lot frontage (ground sign only).

☐ Not Applicable ☒ Applicable

If applicable, describe below:

The total area of our proposed sign is 258.5 sq ft, whereas the total allowed area by ordinance is 250 sq ft, a difference of just over 3%. A 3% increase in the permitted wall sign area is a minimal deviation that preserves the intent of the zoning ordinance while allowing for a balanced, proportionate sign design that is appropriately scaled to the building façade. The requested overage will not adversely affect neighboring properties, traffic safety, or the overall visual character of the area. Granting this variance provides reasonable flexibility without undermining the purpose of the sign regulations and results in a practical, aesthetically compatible installation.

- e. Not Self-Created.** Describe the immediate practical difficulty causing the need for the Variance was not created by the applicant or any person having an interest in the sign, sign structure, or property.

☐ Not Applicable ☐ Applicable

If applicable, describe below:

Standard #2. Limit Use of Property.

Explain how the failure to grant relief will unreasonably prevent or limit the use of the property and will result in substantially more than mere inconvenience or inability to attain a higher economic or financial return.

Failure to grant the requested 3% sign area variance would unreasonably limit the property's ability to function as intended by restricting adequate business identification and visibility. The requested relief is not sought to increase profitability, but to provide signage that is proportionate to the building and reasonably visible to customers. Denial of the variance would result in substantially more than a mere inconvenience by impairing the property's practical use for its intended commercial purpose, reducing effective wayfinding and customer recognition despite the requested deviation being minimal and having no meaningful impact on neighboring properties or the public interest.

Standard #3. Adverse Impact on Surrounding Area.

Explain how the Sign Variance will not result in a use or structure that is incompatible with or unreasonably interferes with adjacent or surrounding properties, will result in substantial justice being done to both the applicant and adjacent or surrounding properties, and is not inconsistent with the spirit and intent of this chapter.

The requested 3% sign area variance will not result in a structure or use that is incompatible with, or unreasonably interferes with, adjacent or surrounding properties. The proposed sign remains consistent with the scale, design, and commercial character of the area, and the slight increase in sign area will not create adverse impacts related to aesthetics, traffic safety, light, or neighboring property use. Granting the variance achieves substantial justice by allowing the applicant reasonable and effective identification of the business while preserving the rights and interests of surrounding property owners, who will experience no material detriment as a result of the minimal deviation. Furthermore, the request is consistent with the spirit and intent of the sign ordinance, which is to regulate signage in a manner that protects the public health, safety, and welfare while preventing excessive or intrusive signs. Because the requested increase is de minimis and does not undermine these objectives, approval of the variance represents a reasonable application of the ordinance that balances its purpose with the practical use of the property.
