City of Novi

45175 Ten Mile Road Novi, Michigan 48375 248.347.0460 248.347.0577 fax

cityofnovi.org

We are pleased to submit the Annual Comprehensive Financial Report of the City of Novi for the fiscal year ended June 30, 2024. This report is prepared for the purpose of disclosing the City's financial condition to its residents, elected officials and other interested parties. The financial statements contain all disclosures necessary to enable the reader to gain an understanding of the City's financial activities. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the City. We believe the data presented is accurate in all material aspects, that it is presented in a manner designed to fairly set forth the financial position and results of operations of the City, and that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

Generally accepted accounting principles (GAAP) require management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

All local units of government within the State of Michigan must comply with the Uniform Budgeting and Accounting Act, PA 2 of 1968, as amended, which requires an annual audit of the financial records and transactions of the City by independent certified public accountants. The primary purpose of the auditing requirements of this act is to maintain the confidence of all interested parties in the integrity of the record keeping and financial reporting of local units of government.

Profile of the Government

The City of Novi, incorporated in 1969, is strategically located in the southwestern portion of vibrant Oakland County. Located just 30 miles northwest of downtown Detroit, the suburban City government serves approximately 66,000 residents (per 2020 U.S. census bureau) and encompasses an area of approximately 32 square miles. Novi is considered a choice community to live and work. A dynamic, growing community, Novi offers an abundance of rolling, wooded acreage, which provides a unique natural backdrop for residential, commercial and industrial land development. Novi is well connected to highway, rail, and air transportation routes offering outstanding accessibility to the rest of the world.

Businesses can also count on an abundance of county and regional resources or help with creating new business opportunities, securing financing, improving technological business expertise, and learning to do business abroad. Novi's quality of life stems from its successful balance of residential and commercial tax base. In its effort to maintain open relationships with businesses and residents, Novi maintains a comprehensive web site at cityofnovi.org. The City's economic development department's website, InvestNovi.org, is devoted to attracting new and retaining existing businesses. The site informs potential business investors and celebrates existing businesses.

The City of Novi operates under the Council-Manager form of government. Policy-making and legislative authority are vested in City Council which is presided over by the Mayor, who is elected for a two-year term. The six other Council members are elected for four-year overlapping terms. The City Manager is appointed by City Council. This official heads the administrative branch of city government and directs all city operations, projects and programs.

The City provides a full range of municipal services including police and fire/medical protection; public services, parks, recreational and cultural activities; library; building inspection; code enforcement and planning and development. In addition to general government activities, the activities of the Economic Development Corporation and Corridor Improvement Authority are reported as separate component units of the City. Component units are legally separate entities for which the primary government is financially accountable.

The City of Novi prepares budgets in accordance with the Michigan Uniform Budgeting and Accounting Act, PA 2 of 1968, as amended. Under the direction of the City Manager, the Finance Director prepares an initial projection of revenue for the next fiscal year. Spending priorities are then established based upon the City's financial policies and mandated requirements. The activities of the General Fund and Special Revenue Funds are included in the annual appropriated budget. The level of budgetary control (the level at which expenditures cannot exceed the appropriated amount) is established by function. It takes a five-vote majority to adopt and amend the budget.

Factors Affecting Financial Condition

Local Economy

Standard & Poor's, which provides credit ratings and other financial analysis, affirmed the City of Novi's high quality rating on general obligation bonds as AAA in November 2015 (most recent rating). Standard & Poor's defines an AAA rating as "being the highest possible rating and reflects the opinion that the issuer has extremely strong capacity to meet its financial commitments." This rating places Novi in an elite group of communities throughout the country. Standard & Poor's notes that "Novi has a very strong economy with a projected per capita effective buying income of 147% of the national level and per capital market value of \$124,081. A very strong management with strong financial policies and practices and a very strong budgetary flexibility with an available fund balance of \$12.0 million."

Due to the City of Novi's strong financial policies and budgetary procedures, the COVID-19 pandemic had less of an impact on the City than many other surrounding communities. The City took quick action to amend its budget in early May 2020 to account for an anticipated loss in revenue and reduced all departments' expenditures. The City has continued to be conservative in its budgeting. The City is seeing activity return to pre pandemic levels in fiscal year 2024 and budgeted in fiscal year 2025. The City's General Fund original budget had a use of fund balance of \$812,770. The amended budget forecasted a net decrease to fund balance of \$3,031,754 with the General Fund ending Fiscal Year 2024 with a net decrease of \$2,361,003 to fund balance. The amended budget accounted for an increase in use of fund balance due to \$3 million of budget rollovers from fiscal year 2023 for contracts/commitments the City entered into that were not completed as of June 30, 2024, \$251,000 for MERS transfer policy change, \$250,000 related to the settlement of the fire contract, \$163,000 for Fire Station 2 and 3 generators and \$155,000 for fire truck repairs. While the forementioned amendments were increases to expenditures the City also had amendments with provided for savings and increase to revenue. Examples include: \$49,000 savings in the economic development director vacancy, \$174,000 reductions in the transfer to Parks, Recreation and Culture Fund for the reduction in Older Adults Service vehicle purchases, decrease of \$25,000 transfer to EDC, overall department savings of \$677,000 and a \$600,000 increase to interest income. The expenditure savings from budget to actual as of June 30, 2024 is mostly due to the Forfeiture Fund not needing a \$200,000 transfer from the General Fund. In addition, total revenue from licenses, permits and charges for services as well as interest income both came in higher than budget by a grand total of approximately \$309,000.

Novi is also proud of its strong economic climate and offers a diverse mix of business opportunities spanning from automotive research and development to world class healthcare providers and medical device manufacturers. Within the City of Novi, there are many good stories that aid in the overall quality of economic development. Some of these milestones include:

- New residential construction valued at \$20,376,156, new commercial construction valued at \$82,019,128 for a grand total of new construction of \$102,395,284.
- 130 plus foreign-owned firms from 20 plus different countries call Novi home.
- Asahi Kasei American, a Japanese producer of chemicals and materials, announced a relocation from New York to Novi. The regional headquarters will take over a 14,403 square foot facility in the City.
- BLM Group USA, a global leader in tube and sheet metal processing machine solutions, announced plans to expand its Novi headquarters for North America with a newly 65,000 square foot expansion.
- Sakura Novi off Grand River Avenue has begun development. This section of Novi will feature a
 mixed-use Asan village consisting of retail and dining in the front of the complex near Grand
 River and apartments along the back of the property.
- Autosystems America, Inc. is expanding in Novi creating 97 jobs. The company, a division of Magna Internation plans to establish its Center of Excellence for Lighting at an existing facility in Novi. The company plans to invest \$2.45 million.

- Additional projects include:
 - o Fountain View, three medical office buildings with a total of 49,965 square feet space.
 - o Trek Addition with 27,734 square foot warehouse addition to the existing 15,550 square foot Trek, Inc. Building.

Novi remains strong with a diverse tax mix of residential, manufacturing, office, service and technology, and retail-recreational centers and continues to provide a stable environment to attract new investment within Novi. Novi remains on sound financial footing despite the prevailing tough economic conditions because of continued focus on core strategies and investments within our community that have produced sound financial results and satisfied citizen perceptions (National Citizen Survey). In 2022, Novi was named #10 Best Places to Live for Families in the US by Forbes Magazine. Niche.com also rated Novi as the 3rd best places to live in the State of Michigan in 2024.

Financial Policies

Fund Balance Policy

The City follows the City Council's adopted, by resolution, fund balance/reserve policy. The policy establishes a reserve to pay for expenditures, states the City will attempt to obtain additional revenue sources to ensure a balanced budget and aggressively collect revenue, establishes user charges and fees at a level to take into account the cost of providing the service, maintain a level of reserves to comply with terms and conditions of debt instruments, and review fund balance/reserves annually during the budget process. In addition, in the event the level of expenditures exceeds the estimated appropriations, the City will create a plan to replenish fund balance/reserves within three years by controlling operating expenditures, adjusting operations and/or dedicating excess or specific revenue sources. The policy establishes a minimum reserve as a percentage of budgeted expenditures of 22-25% in the General Fund, 10-20% individually and collectively amongst the three road funds, 12-22% for Parks and Recreation, and varying reserves for the remaining special revenue funds dependent on the funds yearly activity and capital needs. Subsequent to year end, the City amended the policy to update the minimum reserve percentages, which will be in effect for the fiscal year ended June 30, 2025.

Debt Policy

The City of Novi, as a home rule unit, presently has a statutory limit on the amount of general obligation debt outstanding. The limit on the outstanding indebtedness cannot exceed 10% of the equalized assessed valuation. The debt policy approved by City Council in March 2013 put forth these additional debt limits:

- The City's net bonded indebtedness incurred for all public purposes should not exceed \$2,500 per capita,
- Debt service payments are limited to 20% of the combined operating and debt service fund expenditures, and
- Municipal securities issued for capital improvements purposes shall not exceed 5% of the state equalized valuation of the property assessed in the City.

Investment Policy

The City's investment objectives in priority order are: safety, liquidity, and yield. Disbursement, collection and deposit of all funds will be managed to ensure that all cash is invested promptly until needed. The City will strive to maximize the return on the portfolio, with the primary objective of preserving capital by prudent investment practices.

Long-term Financial Planning

The City continues to be proactive and strategically plans into the future by annually preparing a three-year financial forecast. In addition, the City prepares a six year Capital Improvement Plan (CIP) which is approved by the City Planning Commission and accepted by the City Council. A capital improvement is defined as real property greater than \$25,000 that has a life expectancy of at least five years and personal property costing more than \$25,000 with a life expectancy of at least one year. The City will maintain its physical assets at a level adequate to protect the City's capital investment and to reduce future maintenance and replacement costs. The budget will provide for the adequate maintenance and the orderly replacement of the capital plant and equipment from current revenues where possible.

The 2020 Census numbers were released in August 2021. Novi's population increased to 66,243, up from the 2010 Census which report a population at 55,224, or a 20% increase. The Census data is required to be used for the Constitutional portion of State Shared Revenue distributions. A constitutional portion is distributed to cities, villages and townships based on a community's population and cannot be eliminated without a vote of the people. For the fiscal year ended June 30, 2024, Novi's reliance on revenue sharing payments represents 17.3% of total General Fund revenues or \$7,425,525. Novi's revenue sharing distribution increased \$81,600 or 1% from the prior year.

The City of Novi has made great strides over the past twenty years in both managing and reducing debt while recognizing savings from refunded/called debt activities. For the fiscal year ended June 30, 2024, **debt obligations were reduced by \$2,740,000 from the prior fiscal year.** Total direct debt at June 30, 2024 was \$6,045,000.

Internal Controls

Management of the city is responsible for establishing and maintaining internal controls designed to provide reasonable assurance that the assets of the city are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management. The City believes staffing levels are adequate to provide for segregation of duties as well and to provide for proper checks and balances giving reasonable assurance that assets are protected and financial transactions are properly recorded.

Major Initiatives

The residents of Novi approved a ten-year capital improvement millage (CIP) which was first levied July 2017. The City continues to invest in infrastructure to maintain its current structures as well as provide investments in new acquisitions. In Fiscal Year 2024 the CIP millage was used to provide for Jessica's splash pad at Bosco Field and purchase of two large properties. One of the properties is adjacent to ITC Park and the other by Lee Begole Drive and 11 Mile Road.

Awards

The Government Finance Officers Association (GFOA) awarded a Certificate of Excellence in Financial Reporting to the City of Novi for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2023. This was the 26th year that the City of Novi has received this prestigious award.

Acknowledgements

The preparation of this Annual Comprehensive Financial Report was made possible by the efficient and dedicated service of many individuals. We wish to express our sincere appreciation to each of them. Special thanks to the Mayor and City Council members as well as City Manager, Victor Cardenas for their leadership and support in matters pertaining to the financial affairs of the City.

Respectfully submitted,

ann

INDEPENDENT AUDITORS' REPORT

November 26, 2024

The Honorable Mayor and Members of the City Council City of Novi, Michigan

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Novi, Michigan* (the "City"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

• 675 Robinson Road, Jackson, MI 49203 517.787.6503

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- · exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud
 or error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the schedules for the pension and other postemployment benefit plans, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued, under separate cover, our report dated November 26, 2024, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Rehmann Lobarn LLC

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

As management of the City of Novi, Michigan (the "City"), we offer readers an overview of the City's financial activities for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that is furnished in the financial statements and notes to the financial statements.

Financial Highlights

| · Total net position | \$ 421,140,697 |

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business.

The *statement of net position* presents information on all of the City assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) or from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, community and economic development, and recreation and culture. The business-type activities of the City include water and sewer, the ice arena, and senior housing.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also two legally separate *component units* for which the City is financially accountable. Financial information for the component units are reported separately from the financial information presented for the primary government itself.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Management's Discussion and Analysis

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long term impact of the government's near term financing decisions. Following both the governmental fund balance sheet and the governmental fund statement of revenue, expenditures and changes in fund balances are reconciliations to facilitate this comparison between *governmental funds* and *governmental activities*.

Information for each of the City's individual governmental funds is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund and the capital improvement program capital projects fund, which are considered to be the City's major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general, special revenue, debt service, capital projects, and permanent funds. Budgetary comparisons statements or schedules have been provided herein to demonstrate compliance with those budgets.

Proprietary Funds. The City maintains two types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water and sewer, ice arena, and senior housing operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for its healthcare self-insurance.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the water and sewer, ice arena, and senior housing operations enterprise funds, which are considered to be major funds of the City, and the internal service fund.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information includes this management's discussion and analysis and the schedules for the City's pension and other postemployment benefits plans.

The combining and individual fund financial statements and schedules referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

The economic development corporation component unit financial statements and the corridor improvement authority component unit financial statements follow the nonmajor governmental funds combining statements and schedules.

Management's Discussion and Analysis

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$421,140,697 at the close of the most recent fiscal year.

| Total net position | \$ 215,061,835 | \$ 198,956,264 | \$ 206,078,862 | \$ 205,991,891 | \$ 421,140,697 | \$ 404,948,155 | | | | |

By far the largest portion of the City's net position reflects its investment in capital assets (e.g. land, construction in progress, roads, nonmotorized pathway improvements, bridges, drains, buildings and improvements, machinery and equipment, land improvements, library books, lease equipment, subscription assets, and water and sewer distribution systems), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (11.3 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance is *unrestricted net position (deficit)*. At the end of the current fiscal year, the City reported positive balances in the net investment of capital assets and restricted net position; however, the unrestricted deficit in governmental activities was primarily the result of net pension liability and related deferred amounts.

Management's Discussion and Analysis

The City's assets and deferred outflows of resources increased approximately \$12.3 million from the prior year. This is largely due to the following:

- Net other postemployment benefit (OPEB) asset increased from \$4,102,026 to \$8,621,786 for an increase of \$4,519,760. Good market conditions accounted for the OPEB increase. Net change in fair value of investments was an increase of \$3,721,980 in fiscal year 2024. In the prior year the net change in fair value of investments was an increase of \$2,786,324.
- Total net capital assets increased from fiscal year 2023 to fiscal year 2024 by a total of \$24,325,561. The City prides itself on maintaining
 its capital assets and providing new and improved assets to its residents. Noteworthy asset additions include land purchases at ITC/8 Mile
 Road and at 11 Mile/Lee Begole Drive, Jessica's Splash Pad, Industrial Business Road improvement, Flint Street/Ring Road, sanitary sewer
 improvements, Safe Route to Schools sidewalks, pathways and ADA improvements, Studio 6, vactor purchase, roof replacement at fire
 station #4, window replacement on ranch housing at Meadowbrook Comments and various vehicle and machinery and equipment
 purchases.

The City's liabilities and deferred inflows of resources decreased by approximately \$3.9 million from the prior year. This is largely due to the following:

- Accounts payable and accrued liabilities decreased from \$14,468,873 to \$11,586,399 in fiscal year 2024. The majority of the decrease is due to the timing of when the City received construction invoices compared to when they are paid.
- Total general obligation bonds decreased by \$2,740,000. Total debt outstanding at June 30, 2024 is \$6,045,000.

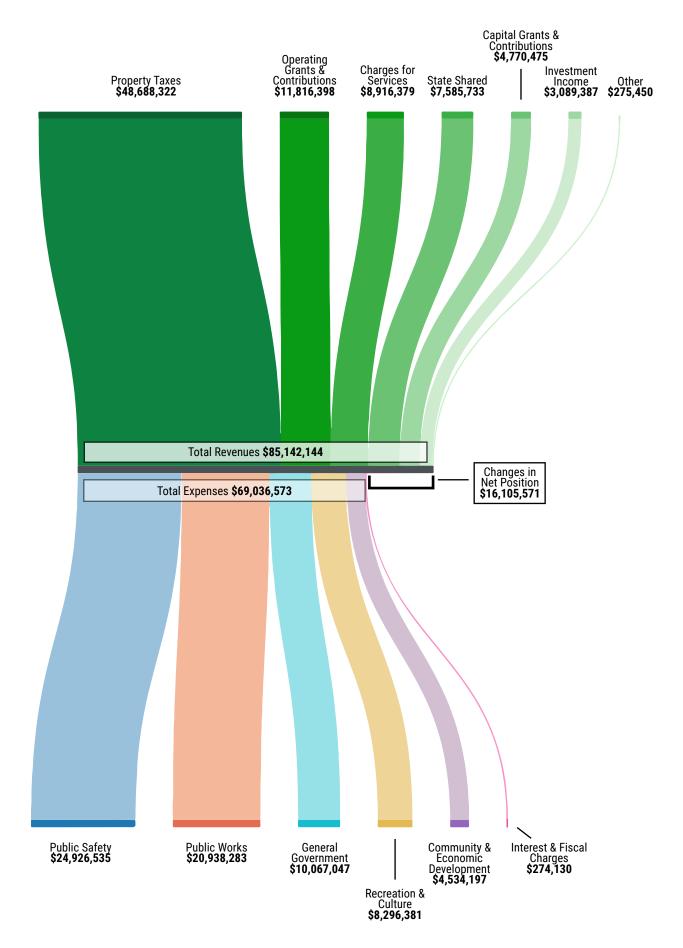

The City's net position increased by \$16,192,542 from the prior year net position, compared to the prior year's \$8,778,358 increase. This is largely due to the City's continued investment in capital investments. The net capital investment in capital assets increased \$23.0 million from fiscal year 2023 to 2024.

Management's Discussion and Analysis

Governmental activities. Governmental activities increased the City's net position by \$16,105,571 (as compared to a prior year increase of \$8,865,114). Key elements of this increase and the change from the prior year include:

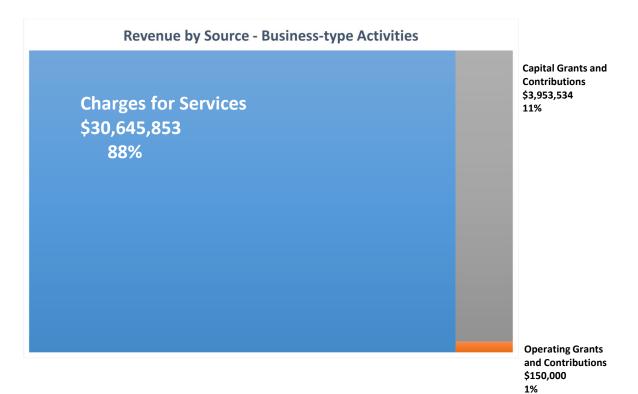

- The fluctuation in total investment income. The volatility in the market caused an increase in investment income from \$911,429 in fiscal year 2023 to \$3,089,387 in fiscal year 2024.
- Property taxes increased 5.6% or \$2,572,104 from fiscal year 2023 to fiscal year 2024. The inflation rate multiplier of 5% for the current year in addition to new construction and uncapping of property values allowed for the increase.
- Capital contributions from MDOT (cost sharing projects with MDOT) and developer donated assets increased by \$2,273,397 from fiscal year 2023 to 2024.
- Total expenses were higher than the prior year by \$1.4 million. This is largely due to \$359,000 increase in depreciation expense on capital
 assets. In addition, parks and recreation and library programs are returning to pre-pandemic participation levels. An increase in
 participation have increased programs costs.

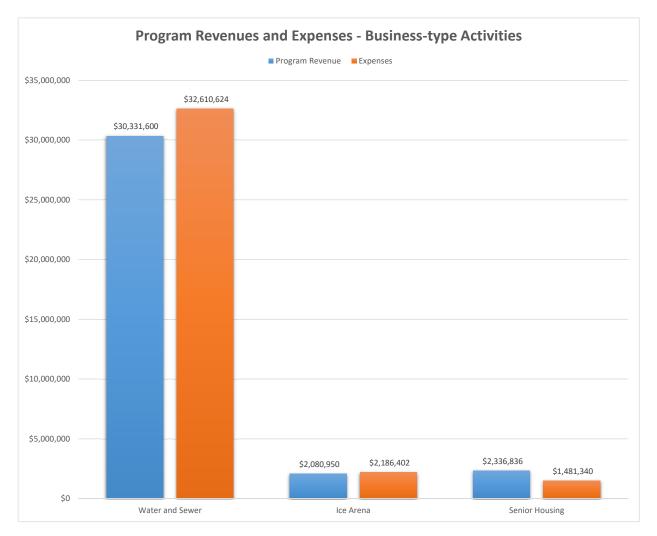

Management's Discussion and Analysis

Business-type activities. Business-type activities increased the City's net position by \$86,971, as compared to a decrease of \$86,756 in the prior year. Key elements of this decrease and the change from the prior year include:

• The fluctuation in total investment income. The volatility in the market caused an increase in investment income from \$858,208 in fiscal year 2023 to \$1,615,951 in fiscal year 2024.

Financial Analysis of the City's Governmental Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$42,160,107, a decrease of \$3,020,865. The nonspendable portion of fund balance increased from \$7,464,804 to \$7,674,048. Nonspendable fund balance is not available for new spending because it has been set aside for the following purposes:

- for prepaid items and other assets (\$629,201); and
- for perpetual drain fund maintenance (\$7,044,847).

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance was \$11,483,859, while total fund balance was \$12,084,391. As of June 30, 2024, the unassigned fund balance represented 95.0% of total fund balance.

Management's Discussion and Analysis

The fund balance of the City's general fund decreased by \$2,361,003 during the current fiscal year. This can be attributed to \$3 million of budget rollovers from fiscal year 2023 for contracts/commitments the City entered into that were not completed as of June 30, 2024.

The capital improvement program capital project fund was created to account for the collection and corresponding expenditures related to the August 2016 voter-approved CIP millage (1 mill), which was levied beginning July 1, 2017. This fund has a deficit fund balance of \$9,051,104 at year end. The fund balance decreased from prior year in the amount of \$5,356,036, compared to an increase of \$1,126,284 in the prior year. This is largely due to \$7 million of land purchases. One property is located at ITC Park and 8 Mile Road. The other land purchase was at 11 Mile and Lee Begole Drive. In addition, the City opened its first splash pad at Bosco Park.

Total net position of the water and sewer fund at the end of the year amounted to \$191,521,091. Of this amount, \$163,846,311 represents the investment in capital assets and \$27,416,126 represents unrestricted net position. The fund had a decrease in total net position for the year of \$932,905. This decrease is largely due to \$388,000 in costs for PCCP transmission main condition assessment project taking place during fiscal year 2024. In addition, the City had an increase of \$626,360 in sewer costs from Oakland County Water Resource Commission.

Total net position of the ice arena fund at the end of the year amounted to \$5,201,855. Of this amount, \$4,425,854 represents the net investment in capital assets and \$776,001 represents unrestricted net position. The fund had an increase in total net position for the year of \$42,697. This increase is largely due to the ice arena activity returning to pre-pandemic levels. Program revenues were up from fiscal year 2023 to 2024. While program expenditures were also increased the revenues exceeded the costs.

Total net position of the senior housing fund at the end of the year amounted to \$9,200,068. Of this amount, \$7,902,976 represents the net investment in capital assets and \$1,297,092 represents unrestricted net position. The fund had an increase in total net position for the year of \$925,163. This increase is largely due to \$150,000 grant for the pickleball courts located at Meadowbrook Commons. The City continues to budget the senior housing fund to allow for savings and future capital improvements.

Total net position of the internal service fund at the end of the year amounted to \$2,597,780, all of which is unrestricted. The fund had an increase in total net position for the year of \$979,659. The City became self-insured for its HAP non-Medicare employees and retirees. The activity of the self-insurance is tracked in the internal service fund. The illustrative rates charged to the other funds for coverage related to HAP policies exceeded the actual health and prescription costs for those members covered resulting in an increase to net position. The unrestricted net position will be used as a claims reserve fund as well as used to offset future cost increases and/or reduce employee monthly contributions toward their premiums.

Management's Discussion and Analysis

General Fund Budgetary Highlights

The fiscal year 2024 general fund original budget estimated expenditures and other financing uses to be greater than revenues and other financing sources (decrease in fund balance) by \$812,770. The final amended budget estimated revenues and other financing sources to be \$1,432,310 more than the original budget, and expenditures and other financing uses that were \$3,651,294 more than the original budget. Significant budget amendments included:

- \$3 million of budget rollovers from fiscal year 2023 for contracts/commitments the City entered into that were not completed as of June 30, 2024
- \$251,000 for MERS transfer policy change
- \$250,000 related to the settlement of the fire contract
- \$163,000 for Fire Station 2 and 3 generators and \$155,000 for fire truck repairs
- \$174,000 reductions in the transfer to parks, recreation and culture fund for the reduction in older adults service vehicle purchases
- Overall department savings of \$677,000
- \$1.4 million increase to interest income

The fiscal year 2024 general fund amended budget estimated expenditures and other financing uses to be more than revenues and other financing sources (decrease in fund balance) by \$3,031,754. The actual expenditures and other financing uses were more than revenues and other financing sources (decrease of fund balance) by \$2,361,003.

Revenues and other financing sources were \$477,437 more than expected primarily due to:

- Building permits being higher than expected. During the pandemic, the City saw a significant decrease in building revenue. That trend continued for several years leading the City to budget building revenues conservatively. Building revenue exceeded budget by \$133,000 in fiscal year 2024.
- Interest income exceeded budget by \$175,652 due to positive economic conditions during fiscal year 2024.

Expenditures and other financing uses were \$193,314 less than expected primarily due to:

• The general fund had originally budgeted a \$200,000 transfer to the forfeiture fund to assist with the funding of police vehicle replacements. The forfeiture fund did not need the funds during fiscal year 2024.

Management's Discussion and Analysis

Capital Assets and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2024, amounted to \$392,345,614 (net of accumulated depreciation/amortization). This investment in capital assets includes land, construction in progress, roads, nonmotorized pathway improvements, bridges, drains, buildings and improvements, machinery and equipment, land improvements, library books, lease equipment, subscription assets, and water and sewer distribution systems. Net capital assets for governmental activities increased by 8.4% and for business-type activities increased by 4.6%.

| | | | Capital | Ass | ets (Net of De | epreciation/Amortization) | | | | | |

Major capital asset events during the current fiscal year included:

- \$7 million for the purchase of two land parcels; property adjacent to ITC Park and the other at Lee Begole Drive and 11 Mile Road
- \$5 million in improvements to Howell Walled Lake Sanitary Sewer Substation and Walled Lake District Sanitary Sewer Restoration
- \$2.5 million Jessica's splash pad
- \$2.6 in pathway and ADA improvements and safe route to schools sidewalk initiative
- \$11.5 million in road improvements
- \$3.9 million in building and improvements and machinery and equipment purchases
- \$2.3 million in drains

Additional information on the City's capital assets can be found in Note 9 to the financial statements.

Management's Discussion and Analysis

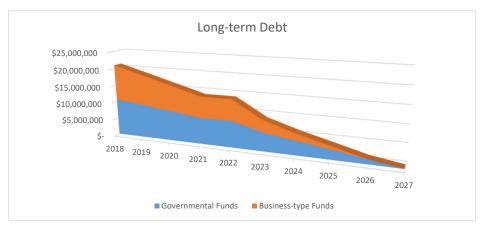

Long-term Debt. At the end of the current fiscal year, the City had total bonded debt outstanding of \$6,045,000. Of this amount, \$4,025,000 is comprised of debt backed by the full faith and credit of the government. The remainder of the City's bonded debt represents bonds secured solely by specified revenue sources.

| | General Obligation and Revenue Bonds | | | | | | | | | | |
|--------------------------|--------------------------------------|----|-----------|----|--------------------------|----|-----------|-------|-----------|----|------------|
| | Governmental activities | | | | Business-type activities | | | Total | | | |
| | 2024 | | 2023 | | 2024 | | 2023 | | 2024 | | 2023 |
| | | | | | | | | | | | |
| General obligation bonds | \$ 4,025,000 | \$ | 5,265,000 | \$ | 2,020,000 | \$ | 3,520,000 | \$ | 6,045,000 | \$ | 8,785,000 |
| Unamortized premium | 256,061 | | 384,091 | | - | | - | | 256,061 | | 384,091 |
| Compensated absences | 2,853,596 | | 2,545,966 | | 71,142 | | 59,205 | | 2,924,738 | | 2,605,171 |
| | | | | | | | | | | | |
| Total | \$ 7,134,657 | \$ | 8,195,057 | \$ | 2,091,142 | \$ | 3,579,205 | \$ | 9,225,799 | \$ | 11,774,262 |

The City's total bonded debt decreased by \$2,740,000 (31.2 percent) during the current fiscal year as a result of scheduled debt payments.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total state equalized valuation. The City's current outstanding general obligation debt is substantially below the current debt limit of \$559,948,276.

The outstanding bonded debt by year is show below:

Additional information on the City's long-term debt can be found in Note 10 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

- The budget plan, as originally approved for fiscal year 2025, has general fund revenues greater than expenditures of \$745,111. In an effort to increase fund balance and increase the percentage of fund balance to total expenditures in the general fund, City Council concluded to allocate the cost of the new salt down between the general fund and two other funds, postpone a year of light duty vehicle purchases, not fill two open positions for personnel savings, and postpone the civic center generator replacement until a future year.
- The 2025 fiscal year approved tax millage rate remained at 10.5376 from fiscal year 2024. The total general fund tax revenue is expected to increase \$1.5 million or 5.4%.
- State Shared Revenues and Act 51 revenues are both expected to increase slightly due to the population factor used in the formula calculation. The City's population increased from 55,224 in 2010 to 66,243 in 2020.
- Licenses, permits and charges for services have started to rebound from the COVID pandemic years. The City has continued to be conservative in estimated revenues with only a slight increase from fiscal year 2024 estimates to fiscal year 2025 budget projections.

Management's Discussion and Analysis

The City continues to place an importance on its infrastructure in fiscal year 2025. The City has \$28,379,082 of budgeted costs in its capital improvement plan for fiscal year 2025. The CIP includes \$12.6 million of road improvements, \$400,000 of sidewalks and pathways, \$3.6 million of storm sewer and drainage projects, \$8.9 million of water distribution improvements, \$500,000 in parks projects, \$2 million in building and property developments, and \$447,000 in machinery, equipment and vehicles.

Requests for Information

This financial report is designed to provide a general overview of the City of Novi, Michigan's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the finance department, City of Novi, 45175 Ten Mile Road, Novi, MI 48375. You may also visit our website at www.cityofnovi.org or contact the finance department directly at 248-347-0465.

| Reconciliation | |
|--|----------------|
| Net Changes in Fund Balances of Governmental Funds | |
| to Change in Net Position of Governmental Activities | |
| For the Year Ended June 30, 2024 | |
| Net change in fund balances - total governmental funds | \$ (3,020,865) |
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the | |
| statement of activities, the cost of those assets is allocated over their | |
| estimated useful lives and reported as depreciation/amortization expense. | |
| Capital assets purchased / constructed | 24,596,285 |
| Donated capital assets | 627,367 |
| Contributed capital | 3,907,279 |
| Depreciation/amortization expense | (12,121,713) |
| Loss on disposal of capital assets | (578,085) |
| Revenues in the statement of activities that do not provide current financial | |
| resources are not reported as revenues in the funds, but rather are deferred | |
| to the following fiscal year. | |
| Net change in deferred inflows for grants and other receivable | (6,956) |
| Internal service funds are used by management to charge the costs of certain health | |
| insurance costs to individual funds. The net increase (decrease) in the net position of the | |
| internal service fund is reported with governmental activities. | |
| Net operating income from governmental internal service fund | 866,934 |
| Investment earnings from governmental internal service fund | 112,725 |
| Net operating income attributable to business-type activities | (52,016) |
| Bond proceeds provide current financial resources to governmental funds | |
| in the period issued, but issuing bonds increases long-term liabilities in the | |
| statement of net position. Repayment of bond principal is an expenditure in the | |
| governmental funds, but the repayment reduces long-term liabilities in the | |
| statement of net position. | |
| Issuance of other long-term liabilities | (247,862) |
| Principal payments on bonds and other long-term liabilities | 1,306,782 |
| Some expenses reported in the statement of activities do not require the use of | |
| current financial resources and therefore are not reported as expenditures in | |
| governmental funds. | |
| Amortization of deferred charge on refunding and premium and change in | |
| accrued interest payable on bonds | 61,934 |
| Change in net pension liability and related deferred amounts | 70,322 |
| Change in net other postemployment benefit asset and related deferred amounts | 368,403 |
| Change in the accrual for compensated absences | (307,630) |
| Change in the claims and judgments liability | 522,667 |
| Change in net position of governmental activities | \$ 16,105,571 |

NOTES TO FINANCIAL STATEMENTS

Notes to Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Novi, Michigan (the "City") was incorporated in 1969. In 1909, the City came under the provisions of Act 279, P.A. 1909, as amended ("Home Rule City Act"). The City is governed by an elected seven-member council.

The accounting and reporting policies of the City conform in all material respects to generally accepted accounting principles (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the standard setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). Following is a summary of the significant policies:

Reporting Entity

As required by generally accepted accounting principles, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. The financial data of the component units are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

Blended Component Unit

A blended component unit is a legally separate entity from the City but is so intertwined with the City that it is, in substance, the same as the City. It is reported as part of the City and its financial data is combined with data of the appropriate funds. The City's only blended component unit is described as follows:

The City of Novi Building Authority (the "Building Authority") is governed by a commission that is appointed by the City Council. Although it is legally separate from the City, the Building Authority is reported as if it were part of the primary government. Its sole purpose is to finance the City's ice arena and senior housing projects. Currently, the Building Authority has no debt outstanding and no activity.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate from the City but for which the City is financially accountable, or their relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The City's discretely presented component units are described as follows:

The Economic Development Corporation of the City of Novi (the "Corporation") was created to provide means and methods for the encouragement and assistance of industrial and commercial enterprises in relocating, purchasing, constructing, improving, or expanding within the City so as to provide needed services and facilities of such enterprises to the residents of the City. The Corporation's governing body is selected by the City Council. The City also has the ability to impose its will on the Corporation. The Corporation is reported within the component unit column in the government-wide financial statements. It is reported in a separate column to emphasize that it is legally separate from the City. The Corporation does not issue a separate financial report.

Notes to Financial Statements

The Corridor Improvement Authority of the City of Novi (the "CIA") was created by the City in January 2018 as a funding mechanism for corridor improvements on either side of the Grand River Avenue from Wixom Road to Haggerty Road. The CIA is authorized under the Corridor Improvement Authority Act (PA 280 of 2005) and is governed by a Board of Directors whose primary purpose is to correct and prevent deterioration and promote economic growth within the corridor. The CIA's governing body is selected by the City council. The City also has the ability to impose its will on the CIA. The CIA is reported within the component unit column in the government-wide financial statements. It is reported in a separate column to emphasize that it is a legally separate from the City. The CIA does not issue a separate financial report.

Fiduciary Component Unit

The Retiree Health Care Plan Trust Fund (the "RHC") was created by the City to provide funding for future retiree healthcare payments to retirees. City Council has approved an investment policy for the fund which dictates how the assets are invested. Assets are invested with the Michigan Employees Retirement System (MERS) and two financial institutions. The City has the ability to impose its will upon the trust fund.

Joint Ventures

The City is a member of the Resource Recovery and Recycling Authority of Southwest Oakland County (the "Authority"). The Authority is incorporated by the cities of Farmington, Farmington Hills, Novi, South Lyon, Southfield, Walled Lake, and Wixom, Michigan and the Charter Township of South Lyon. The City appoints one member to the Authority's governing board, which then approves the annual budget. The Authority receives its operating revenue from member contributions and miscellaneous income. The financial information of the Authority as of June 30, 2024 can be obtained from the Authority's administrative offices at 20000 W. 8 Mile Road, Southfield, Michigan. The City is unaware of any circumstances that would cause an additional benefit or burden to the participating governments in the near future.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities,* which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities,* which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Notes to Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental funds are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Under this method, revenues are recognized when measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers amounts collected within 60 days of year end to be available for recognition. The following major revenue sources meet the availability criterion: state-shared revenue, state gas and weight tax revenue, district court fines, and interest associated with the current fiscal period. Conversely, special assessments and federal grant reimbursements will be collected after the period of availability; receivables have been recorded for these, along with a "deferred inflow". Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and as such have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *general fund* is the City's primary operating fund. It accounts for all the financial resources of the primary government, except those accounted for and reported in another fund.

The *capital improvement program capital projects fund* is used to account for the collection and corresponding expenditures related to the August 2016 voter approved CIP millage (1 mill) that was levied beginning on July 1, 2017.

Notes to Financial Statements

The City reports the following major enterprise funds:

The *water and sewer fund* provides water to customers and disposes of sanitary sewage in exchange for quarterly user charges.

The *ice arena fund* accounts for the City's two-sheet arena.

The *senior housing fund* accounts for the 175-unit senior housing project, financed using the building authority approach.

Additionally, the City reports the following fund types:

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects that comprise, or are expected to comprise a substantial portion of the fund's total reported inflows.

The *debt service fund* is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal, interest and related costs.

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The *permanent fund* accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.

The *internal service fund* accounts for operations that provide services to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis to operate the City's self-insurance services.

The *custodial fund* is used to account for assets held by the City as an agent for individuals, private organizations, and/or other governments. They primarily hold tax remittances due to schools and other governmental units.

The *retiree health care benefits trust fund* accumulates resources for future retiree healthcare payments to retirees.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Notes to Financial Statements

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Restricted net position represents amounts that are subject to restrictions beyond the government's control. The restrictions may be externally imposed or imposed by law. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Equity

Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are stated at fair value or estimated fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have established market values are reported at estimated fair value. Cash deposits are reported at carrying amounts, which reasonably approximates fair value.

Unrealized appreciation or depreciation on other postemployment benefits trust fund investments due to changes in fair value are recognized each year.

The City participates in the Oakland County Investment Pool (the "Pool") which is managed by the County Treasurer. In accordance with GASB 79, the Authority's shares are recorded at amortized cost, which approximates fair value. The Pool is not subject to regulatory oversight, is not registered with the SEC (Securities Exchange Commission) and does not issue separate financial statements. The value of the City's position in the Pool is the same as the value of the Pool shares, and includes accrued interest.

Notes to Financial Statements

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. At June 30, 2024, the City did not record an allowance for uncollectible accounts, as they expect to collect all outstanding receivables.

In addition to transactions related to pooled cash, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are included in the "due from other funds" or "due to other funds" accounts on the balance sheet. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Amounts due from other governments include amounts due from grantors for specific programs and capital projects. Program grants and capital grants for capital assets are recorded as receivables and revenues at the time reimbursable project costs are incurred. Amounts received in advance of project costs being incurred are reported as unearned revenue.

Leases

Lessee. The City is a lessee for a noncancellable lease of equipment. The City recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The City recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price (if applicable) that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lessor. The City is a lessor for noncancellable leases of cell towers, an ice arena, and use of City fire station. The City recognizes a lease receivable and a deferred inflow of resources in the government-wide, proprietary fund and governmental fund financial statements.

Notes to Financial Statements

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for prepaid lease payments received at lease inception. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the City determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts. The City uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Subscription-Based Information Technology Arrangements (SBITA)

The City has noncancellable subscription-based information technology arrangements. The City recognizes a subscription liability and an intangible right-to-use subscription asset in the government-wide financial statements. The City recognizes subscription liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a subscription, the City initially measures the subscription liability at the present value of payments expected to be made during the SBITA term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for subscription payments made at or before the subscription commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to subscriptions include how the City determines (1) the discount rate it uses to discount the expected SBITA payments to present value, (2) subscription term, and (3) subscription payments. The City uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the SBITA vendor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for SBITAs. The subscription term includes the noncancellable period of the subscription. Subscription payments included in the measurement of the subscription liability are composed of fixed payments and purchase option price (if applicable) that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its subscription and will remeasure the subscription asset and subscription liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Inventory and Prepaid Items and Other Assets

All inventories are valued at cost using the first-in/first-out (FIFO) method.

Prepaid items and other assets represent payments made to vendors for goods and services applicable to future fiscal years. Prepaids of governmental funds are recorded as expenditures when consumed rather than when purchased. Prepaid and other asset balances are offset by nonspendable fund balance in governmental funds.

Notes to Financial Statements

Capital Assets

Capital assets are reported in the applicable governmental or business-type activities columns in the governmentwide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition cost at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the asset constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| | Years |
|------------------------------|-------|
| Governmental activities: | |
| Roads | 15-25 |
| Non-motorized pathway | |
| improvements | 15-30 |
| Bridges | 20-25 |
| Drains | 5-25 |
| Buildings and improvements | 15-40 |
| Machinery and equipment | 4-10 |
| Land improvements | 20-25 |
| Library materials | 10 |
| Business-type activities: | |
| Water and sewer distribution | |
| systems | 30-50 |
| Buildings and improvements | 7-40 |
| Machinery and equipment | 4-15 |
| Land improvements | 20-25 |
| Component units - | |
| Roads | 25 |

Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to one or more future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The City reports deferred outflows for the charge on refunding. This amount represents the difference in the carrying value of refunded debt to its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The City also reports deferred outflows of resources related to its pension and other postemployment benefit plans.

Notes to Financial Statements

Unearned Revenue

Unearned revenue consists of amounts received prior to the delivery of goods/service or expenditure on allowable costs.

Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. Sick pay is accrued for the estimated amount that the City will pay upon employment termination; vacation pay is accrued when incurred. Both of these are reported in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year end. Generally, the funds that report each employee's compensation (the general fund and water and sewer fund, primarily) are used to liquidate the obligations. The City has discontinued the accrual of sick leave days for administrative employees and Michigan Association of Public Employees (MAPE).

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, longterm debt and other long term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the straight-line basis. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expense when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time. The City reports deferred inflows of resources related to its pension and other postemployment benefit plans. The governmental funds also report unavailable revenues, which arise only under a modified accrual basis of accounting that are reported as deferred inflows of resources. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Finally, the statements of net position and governmental funds balance sheets report deferred inflows related to leases. The amounts are deferred and amortized over the remaining life of the lease.

Notes to Financial Statements

Fund Balances

Governmental funds report *nonspendable fund balance* for amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. *Restricted fund balance* is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. *Committed fund balance* is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the City Council. A formal resolution of the City Council is required to establish, modify, or rescind a fund balance commitment. The City reports *assigned fund balance* for amounts that are constrained by the government's *intent* to be used for specific purposes, but are neither restricted nor committed. The City Council approves fund balance assignments and has not delegated the authority to assign fund balance.

When the City incurs an expenditure for purposes for which various fund balance classifications can be used, it is the government's policy to use restricted fund balance first, then committed, assigned, and finally unassigned. The general fund is the only fund that reports a positive unassigned fund balance.

The City Council adopted a Fund Balance Reserve Policy in January 2011. As part of the policy, the City Council has agreed to maintain the City's general fund fund balance to pay for expenditures as a result of unforeseen emergencies or for shortfalls caused by revenue declines. For the general fund, the reserve will be maintained at an amount that represents approximately 22-25 percent of the proposed budgeted expenditures for the following year. The City's minimum reserve as a percentage of budgeted expenditures is 10-20 percent individually and collectively amongst the three road funds, 12-22 percent for parks and recreational services, and varying reserves for the remaining special revenue funds dependent on the funds' yearly activity and capital needs. Subsequent to year end, the City amended the policy to update the minimum reserve percentages, which will be in effect for the fiscal year ended June 30, 2025. The City's reserve policies are based on sound fiscal principles designed to maintain adequate fund balance levels, which are an important component of the City's financial strength. The City will seek to maintain a diversified and stable revenue system to shelter itself from short-run fluctuations in any one revenue source and will establish all user charges and fees at a level consistent with the cost of providing such services.

Interfund Transactions

During the course of normal operations, the City has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers. Balances outstanding at yearend are reported as due to/from other funds. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Notes to Financial Statements

Pensions and Other Postemployment Benefits

For purposes of measuring the net pension liability and net other postemployment benefits asset, deferred outflows of resources and deferred inflows of resources related to pensions and other postemployment benefits, and pension and other postemployment benefit expense, information about the fiduciary net position of the plans and additions to/deductions from the plan fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Special Assessments

Special assessments, if any, are recorded as revenues in the fund financial statements when due, not when levied. Estimated annual installments not yet available are reflected as deferred inflows of resources in the governmental fund financial statements and as revenues in the government-wide financial statements. Special assessments are billed July 1 and are due and payable August 31 with the City's regular tax levies.

Property Tax Revenue

Property taxes are levied on each July 1 and become an enforceable lien at that time; the tax is based on the taxable valuation of property as of the preceding December 31. Taxes are considered delinquent on March 1 of the following year, at which time penalties and interest are assessed.

The City's 2023 property tax revenue was levied and collectible on July 1, 2023 and is recognized as revenue in the year ended June 30, 2024 when the proceeds of the levy are budgeted and available for the financing of operations.

Taxes were levied as follows:

| Purpose | Millage Rate | Revenue |
|---|------------------|----------------------------|
| General operating Police and fire supplemental millage | 4.7505 1.3518 | \$ 22,187,000 6,319,000 |
| Parks and recreation operations | 0.3648 | 1,704,000 |
| Library operations | 0.7303 | 3,412,000 |
| Street maintenance operations | 1.4197 | 6,633,000 |
| Drains maintenance operations | 0.6113 | 2,856,000 |
| Debt levies for library | 0.3471 | 1,623,000 |
| Capital improvements | 0.9514 | 4,444,000 |
| Economic development | 0.0107 | 50,000 |
| | | \$ 49.228.000 |

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The City utilizes various investment instruments which are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Data

The City is legally subject to the budgetary control requirements of State of Michigan P.A. 621 of 1978 (the "Uniform Budgeting Act"). The following is a summary of the requirements of this act according to the State Treasurer's Bulletin for Audits of Local Units of Government in Michigan, dated April 1982, as amended by P.A. 493 of 2000:

- Budgets must be adopted for the general fund and special revenue funds.
- Budgeted expenditures cannot exceed budgeted revenue and fund balance.
- The budgets must be amended when necessary.
- Public hearings must be held before budget adoptions.
- Expenditures cannot exceed budget appropriations.
- Expenditures must be authorized by a budget before being incurred.

The City adopts a formal budget for the general fund and all special revenue funds. A comparison of the budget with statements of actual revenue and expenditures, including budget variances, for the general fund are presented as a part of the basic financial statements. A comparison of the budget with statements of actual revenue and expenditures, including budget variances, for the nonmajor governmental funds is presented as other supplemental information.

The budget is adopted by activity (departmental). Although spending estimates are produced for each line item, budgetary control is exercised at this activity (departmental) level. Expenditures at this level must be approved by the City Council. Expenditures at this level in excess of budget appropriation are a violation of Michigan law.

In accordance with the State of Michigan Uniform Budgeting and Account Act, Act 2 of 1968, "the legislative body of each local unit shall pass a general appropriations act for all funds except trust or agency, internal service, enterprise, debt service or capital project funds for which the legislative body may pass a special appropriation act". The City legally adopts a budget for all funds except fiduciary, internal service, enterprise, debt service or capital project funds have an adopted budget for information and expenditure tracking purposes only. GAAP serves as the basis of budgeting.

Notes to Financial Statements

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to the third Monday in April, the city manager submits to the City Council a proposed operating budget for the fiscal year commencing on the following July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is conducted to obtain taxpayer comments.
- 3. Prior to the third Monday in May, the budget is legally enacted through passage of an ordinance.

During the current year, the budgets were approved and amended in a legally permissible manner.

Expenditures in Excess of Appropriations

P.A. 621 of 1978 of the State of Michigan, as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated in budget resolutions of the governing body. Budgets are required by State law for general and special revenue funds.

In the body of the financial statements, the City's actual and budgeted expenditures for the budgetary funds have been shown on a categorical level, with the approved budgets of the City of those budgetary funds being adopted at the department level.

During the year ended June 30, 2024, the City incurred expenditures in excess of the amounts appropriated as follows:

| | Final Budget | Actual | Over Budget |
|---|-----------------|-----------------|-----------------|
| General fund Current: | | | |
| General government - Integrated solutions Public safety | \$ 5,143,829 | \$ 5,164,457 | \$ 20,628 |
| Fire Debt service: | 7,661,662 | 7,761,555 | 99,893 |
| Principal Interest and fiscal charges | - | 66,782 9,652 | 66,782 9,652 |
| Nonmajor special revenue fund Community Development Block Grant Current - | | | |
| Community and economic development | 171,000 | 187,536 | 16,536 |

Notes to Financial Statements

Deficit Fund Equity

At year end, the City reported unassigned fund balance deficits in the capital improvement program capital projects fund, the nonmajor drain revenue special revenue fund, and the nonmajor community development block grant special revenue fund of \$9,051,104, \$11,752, and \$26,281, respectively. The deficit in the capital improvement program capital projects fund resulted largely from internal borrowing. In prior years, the City council approved a plan to advance construct significant projects totaling approximately \$17 million and to borrow funds either internally or externally to fund the projects. After reviewing funding options (internal borrowings vs. bond issuance), it was determined that the most beneficial way to handle the financing was to borrow internally using long-term capital reserves from other City funds. Internal borrowing will save the City several hundred thousand dollars of bond issuance costs and the millions in interest costs incurred would stay within the City. The City has an approved deficit elimination plan ("DEP") with the State of Michigan for the fiscal year ended June 30, 2023 and will be updating the plan based on the final June 30, 2024 audit. The deficit in the drain revenue special revenue fund was equal to the nonspendable portion of fund balance in the fund, resulting in a total fund balance of \$0. The deficit in the community development block grant special revenue fund was equal to the revenues deferred as a result of receivables collected outside of the period of availability.

State Construction Code Act

The City oversees building construction, in accordance with the State's Construction Code Act, including inspection of building construction and renovation to ensure compliance with the building codes. The City charges fees for these services. The law requires that collection of these fees be used only for construction code costs, including an allocation of estimated overhead costs. A summary of the current year activity and the cumulative surplus or shortfall is as follows:

| Shortfall at July 1, 2023 | \$ (3,525,643) |
|---------------------------------------|-------------------|
| Current year building permit revenue | 1,935,886 |
| Related costs | (1,882,248) |
| | |
| Cumulative shortfall at June 30, 2024 | \$ (3,472,005) |

Notes to Financial Statements

3. DEPOSITS AND INVESTMENTS

Following is a reconciliation of deposit and investment balances as of June 30, 2024:

| | Primary Government | Component Units | Totals |
|---|-----------------------|--------------------|-------------------------------|
| Statement of net position Cash and cash equivalents | \$ 898,603 | \$ 113,956 | \$ 1,012,559 |
| Investments | 77,711,712 | - | 77,711,712 |
| Statement of fiduciary net position Postemployment benefits - Retiree healthcare benefits trust fund: | | | |
| Cash and cash equivalents | 100,290 | _ | 100,290 |
| Investments | 36,640,381 | _ | 36,640,381 |
| investments | 30,040,301 | | 30,040,301 |
| Total | \$ 115,350,986 | \$ 113,956 | \$ 115,464,942 |
| Deposits and investments Bank deposits: | | | |
| Checking / savings accounts Certificates of deposit | | | \$ 1,050,350 16,236,981 |
| Portfolio cash - Retiree Health Care Benefits Trust Fund Investments: | | | 58,394 |
| City pool | | | 61,474,731 |
| Retiree Health Care Benefits Trust Fund | | | 36,640,381 |
| Cash on hand | | | 4,105 |
| Total | | | \$ 115,464,942 |
| IUlai | | | ¢ 115,404,942 |

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits might not be returned. As of June 30, 2024, \$14,880,128 of the City's bank balance of \$17,668,304 was exposed to custodial credit risk because it was uninsured and uncollateralized.

The City's investment policy does not specifically address this risk, although the City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the City evaluates each financial institution with which it deposits City funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk - Investments. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2024, none of the City's investments, excluding the money market accounts which are not subject to custodial credit risk were exposed to risk since the securities are held in the City's name by the counterparty.

Notes to Financial Statements

The City's investments at fair value, as determined by quoted market price are as follows:

| | City | | Retiree Health Care Benefits Trust Fund | |
|---|------|------------|---|------------|
| U.S. government securities | \$ | | Ś | 6,932,615 |
| 5 | Ļ | | Ļ | |
| U.S. agency securities | | 20,837,214 | | 389,181 |
| Corporate bonds | | - | | 1,770,274 |
| Municipal bonds | | 21,581,320 | | - |
| Equities | | - | | 16,014,223 |
| Mutual funds | | - | | 4,933,983 |
| Money market funds | | 10,692,698 | | - |
| Exchange-traded and closed end funds | | - | | 60,996 |
| Michigan CLASS government investment pool | | 5,893,952 | | - |
| Commercial paper | | 2,467,081 | | - |
| MERS Retiree Healthcare Funding Vehicle | | - | | 6,539,109 |
| Bank investment pool - Oakland County | | 2,466 | | - |
| Total investments | \$ | 61,474,731 | \$ | 36,640,381 |

Credit Risk. Statutes and various bond indentures authorized the City to invest in obligations of the U.S. Treasury, governmental agencies and instrumentalities, commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services, bankers' acceptances of U.S. banks, U.S. government or federal agency obligation repurchase agreements, obligations of the State of Michigan or any of its political subdivisions rated as investment grade by not less than one standard rating service, and mutual funds composed of the types of investment vehicles named previously.

Notes to Financial Statements

The City's investments were rated as follows:

| | | Retiree Health Care Benefits |
|--|---|---|
| | City | Trust Fund |

| Unrated | - | 450,177 |
| Not subject to credit risk | 17,522,634 | 27,487,315 |
| Total investments | \$ 61,474,731 | \$ 36,640,381 |

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of an investment. As of June 30, 2024, maturities of the City's investments were as follows:

| | City | | Retiree Health Care Benefits Trust Fund |
|--|------|--|---|
| Less than 1 year 1 - 5 years 6 - 10 years More than 10 years No maturity | \$ | 18,978,962 20,879,236 3,483,633 1,543,784 16,589,116 | \$ 618,358 6,094,061 1,990,470 389,181 27,548,311 |
| otal | \$ | 61,474,731 | \$ 36,640,381 |

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The State generally limits investments in a single issuer to no more than 5% of the total portfolio assets, with the exception of obligations issued, assumed, or guaranteed by the United States.

Notes to Financial Statements

At June 30, 2024, the investment portfolio was concentrated as follows:

| | | Percentage | of Portfolio | |
|--|-----------------------------|------------|---------------------------------|--|
| | | | Retiree Health Care Benefits | |
| Investment Type | Issuer | City | Trust Fund | |
| MERS Retiree Healthcare Funding Vehicle | MERS | N/A | 17.8% | |

| Fund Class A Mutual Fund | Morgan Stanley | N/A | 9.3% | |
| Municipal Bond | State of Michigan | 8.0% | N/A | |
| Municipal Bond | Michigan Finance Authority | 7.9% | N/A | |
| Municipal Bond | Macomb County | 5.9% | N/A | |
| Municipal Bond | Michigan Finance Authority | 5.4% | N/A | |
| Municipal Bond | Great Lakes Water Authority | 5.1% | N/A | |

Notes to Financial Statements

Fair Value Measurement. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset, as determined by the investment advisors. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. These levels are determined by the City's investment manager, and are determined at the fund level based on a review of the investment's class, structure, and what kind of securities are held in the funds. The City had the following recurring fair value measurements as of June 30, 2024:

| | Level 1 | Level 2 | Level 3 | Total |
|---|--|--|---------|---|
| U.S. government securities U.S. agency securities Corporate bonds Municipal bonds Equities Mutual funds Money market funds Exchange-traded and closed end funds Commercial paper | \$ 6,932,615 21,226,395 1,770,274 - 15,550,099 - 10,692,698 60,996 2,467,081 | \$ - 21,581,320 464,124 4,933,983 - - | \$ | \$ 6,932,615 21,226,395 1,770,274 21,581,320 16,014,223 4,933,983 10,692,698 60,996 2,467,081 |
| MERS Retiree Healthcare Funding Vehicle | 6,539,109 | - | - | 6,539,109 |
| | \$ 65,239,267 | \$ 26,979,427 | \$ - | 92,218,694 |
| Investments measured at NAV Michigan CLASS investment pool | | | | 5,893,952 |
| Investments measured at amortized co Bank investment pool - Oakland Coun | | | | 2,466 |
| | | | | \$ 98,115,112 |

The fair value of the City's Level 1 investments is based on quotes from publicly traded securities markets, where available. The fair value of the City's Level 2 investments is determined primarily by a matrix pricing technique, which is used to value securities based on their relationship to benchmark quoted prices. Due to the inherent uncertainty of determining the fair value of investments that are not publicly traded, the fair value reported for these investments may differ significantly from the values that would have been used had a publicly traded market existed for such investments. The investments in the Michigan CLASS government investment pool are not categorized as they are measured at net asset value per share or its equivalent.

Investments in Entities that Calculate Net Asset Value per Share. The City holds share in Michigan CLASS whereby the fair value of the investment is measured on a recurring basis using net asset value per share (or its equivalent) of the investment pool as a practical expedient.

Notes to Financial Statements

At year end, the net asset value of the City's investment in Michigan CLASS was \$5,893,952. The investment pool had no unfunded commitments, specific redemption frequency or redemption notice period required. The Michigan CLASS investment pool invests in U.S. treasury obligations, federal agency obligations of the U.S. government, high-grade commercial paper (rated 'A-1' or better) collateralized bank deposits, repurchase agreements (collateralized at 102% by Treasuries and agencies), and approved money-market funds. The program seeks to provide safety, liquidity, convenience, and competitive rates of return, and is designed to meet the needs of Michigan public sector investors. It purchases securities that are legally permissible under state statutes and are available for investment by Michigan counties, cities, townships, school districts, authorities, and other public agencies.

RECEIVABLES

Receivables are comprised of the following at year-end:

| | Governmental | Business-type | Component |
|---|---|---|---------------------------------|
| | Activities | Activities | Units |
| Taxes receivable Special assessments receivable Water and sewer billing receivable Accrued interest receivable Leases receivable Other receivables Due from other governments | \$ - - 261,134 674,258 1,130,877 2,643,748 | \$ 249,711 465,518 6,858,174 - 3,233,475 8,970 | \$ - - - - - 791 |
| Amount not expected to be | \$ 4,710,017 | \$ 10,815,848 | |
| collected within one year | \$ 926,616 | \$ 3,622,923 | |

5. LEASES

Lessee - The City is involved in one agreement as a lessee that qualifies as a long-term lease agreement. Below is a summary of the nature of this agreement. This agreement qualifies as an intangible, right-to-use asset and not a financed purchase, as the City will not own the asset at the end of the contract term and the noncancelable term of the agreement surpasses one year.

The right-to-use asset and the related activity are included in Note 9, Capital Assets. The lease liability and related activity are presented in Note 10, Bonds and Other Long-term Liabilities.

| Remaining Term of |
|-------------------|
| Agreement |
| |

Asset Type Equipment

5 years

Notes to Financial Statements

| Year Ended June 30, | Principal | | | Interest |
|------------------------|-----------|--------|----|----------|
| | | | | |
| 2025 | \$ | 14,966 | \$ | 2,445 |

| 2029 | | 4,324 | | 29 |
| | | | | |
| Totals | \$ | 67,945 | \$ | 6,052 |

The net present value of future minimum payments as of June 30, 2024, were as follows:

Lessor - The City is involved in five agreements as a lessor that qualify as long-term lease agreements. Below is a summary of these agreements. These agreements qualify as long-term lease agreements as the City will not surrender control of the asset at the end of the term and the noncancelable term of the agreement surpasses one year. Total lease revenue for the year ended June 30, 2024 was \$61,660.

| | Remaining Term of Agreements |
|--|----------------------------------|
| Asset type Cell towers Ice arena Use of City fire station | 2-32 years 2 years 8 years |

Notes to Financial Statements

6. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

The City is involved in one arrangement that qualifies as a long-term subscription-based information technology ("SBITA") arrangement. Below is a summary of the nature of this arrangement. This arrangement qualifies as an intangible, right-to-use subscription asset as the City has the control of the right to use another party's IT software and the noncancelable term of the arrangement surpasses one year.

| | Remaining Term of Agreement | |
|---|--------------------------------|-----|
| Asset Type Subscription assets | 2 years | |
| The right-to-use asset and the related active related active related activity are presented in Note 10, E | , , , | 1 1 |

The net present value of future minimum payments as of June 30, 2024, were as follows:

| Year Ended June 30, | F | Principal | h | nterest |
|------------------------|----|------------------|----|----------------|
| 2025 2026 | \$ | 55,132 58,003 | \$ | 4,525 2,320 |
| Total | \$ | 113,135 | \$ | 6,845 |

7. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities are comprised of the following at year-end:

| | Governmental Activities | | siness-type Activities |
|------------------------|--------------------------------|----|---------------------------|
| unts payable | \$ 4,295,806 | \$ | 5,596,945 |
| ued salaries and wages | 966,862 | | 49,484 |
| abilities | 448,223 | | 101,729 |
| le | 36,900 | | - |
| ayable | 90,450 | | - |
| | | | |
| | \$ 5,838,241 | \$ | 5,748,158 |

Notes to Financial Statements

8. INTERFUND RECEIVABLES AND PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2024, was as follows:

| | Due from Other Funds | | Dι | ie to Other Funds |
|---|-------------------------|---------------------|----|--------------------------|
| General fund Capital improvement program fund Nonmajor governmental funds | \$ | 6,293,320 - - | \$ | - 6,282,219 11,101 |
| Total | \$ | 6,293,320 | \$ | 6,293,320 |

The above balances generally resulted from a time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

Advances between funds are comprised of the following at year-end:

| | Advances to Other Funds | | Advances from Other Funds | |
|---|-------------------------------|----------------|---------------------------------|-----------|
| Capital improvement program capital projects fund Water and sewer enterprise fund | \$ | - 2,800,000 | \$ | 2,800,000 |
| Total | \$ | 2,800,000 | \$ | 2,800,000 |

To minimize the overall cost of securing funds to maximize the amount of capital projects that be completed using the capital improvements millage, the City identified long-term capital reserves in the water and sewer enterprise fund that were available for temporary advancement to the capital improvement program capital projects fund without impacting the operations or rates charged to customers. On June 19, 2017, the City Council approved the advancement of an amount not to exceed \$17 million from the water and sewer enterprise fund to the capital improvement program capital projects fund to be disbursed on an "as needed" basis. The advancement would bear a fixed interest rate of 3%, which represents the approximate market rate of interest the City would pay if it bonded independently to fund the projects. The repayment period is not to exceed 10 years, with amounts to be repaid monthly, via internal transfers, using the proceeds from the voter-approved capital improvements millage or other funds at the City's discretion. Principal payments on the outstanding loan are straight-line over the 10 year period beginning July 2017 through June 2027. Payments have first preference from the annual capital improvements millage before any other expenditure from the capital improvement program capital projects fund.

Notes to Financial Statements

Advances between the primary government and component unit are as follows:

| | Advances to Component Unit | | Advances from Primary Government | |
|---|----------------------------------|----------------|--|----------------|
| Nonmajor governmental funds Corridor improvement authority | \$ | 2,356,157 - | \$ | ۔ 2,356,157 |
| Total | \$ | 2,356,157 | \$ | 2,356,157 |

The advance between the special assessment revolving nonmajor capital projects fund and the Corridor Improvement Authority ("CIA") component unit is to advance fund the construction of a portion of the crescent boulevard extension (NE portion of the Ring Road). The CIA will repay the internal borrowing with its annual tax captures and is projected to be paid in full over the next six years, beginning June 30, 2020, ending June 30, 2026.

For the current fiscal year, interfund transfers consisted of the following:

| | Transfers in | | | |
|---|--------------|------------------------|--|--|
| | | lonmajor vernmental | | |
| Transfers Out | Funds | | | |
| General fund Nonmajor governmental funds | \$ | 2,333,777 6,696,466 | | |
| | \$ | 9,030,243 | | |

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Transfers were made as follows:

- The transfer from the general fund to the parks, recreation, and cultural services special revenue fund (nonmajor) was to subsidize older adult transportation rides within the city limits.
- The transfers from the general fund and the parks, recreation and cultural services special revenue fund (nonmajor) to the public improvement capital projects fund (nonmajor) was to fund capital projects budgeted in the general fund and parks, recreation, and cultural services fund that were not started or not completed by June 30, 2024. The funding for the projects will now come from the Public Improvement Fund.
- The transfer from the municipal street special revenue fund (nonmajor) to the major street special revenue fund (nonmajor) was to fund current and future street improvement projects.
- The transfer from the municipal street special revenue fund (nonmajor) to the local street special revenue fund (nonmajor) was to fund current and future street improvement projects.
- The transfer from the drain perpetual maintenance permanent fund (nonmajor) to the drain revenue special revenue fund (nonmajor) was to fund current and future drain improvement projects.
- The transfer from the library special revenue fund (nonmajor) to the library contribution special revenue fund (nonmajor) was to fund future library building improvements.

Notes to Financial Statements

9. CAPITAL ASSETS

Capital asset activity for the year of the City's governmental activities was as follows:

10. BONDS AND OTHER LONG-TERM LIABILITIES

The following is a summary of bonds and other long-term liabilities transactions of the City for the year ended June 30, 2024:

| | E | Beginning Balance | Additions | C | Deductions | Ending Balance | ue Within One Year |
|--|-----|----------------------|-----------------|----|-------------|-------------------|-----------------------|
| Governmental activities | | | | | | | |
| General obligation bonds \$8,715,000 2016 Unlimited Tax Libr Refunding Bonds, installments of \$165,000 to \$1,390,000 through October 1, 2026, | ary | | | | | | |
| interest at 2.0% to 4.0% | \$ | 5,265,000 | \$ - | \$ | (1,240,000) | \$ 4,025,000 | \$ 1,295,000 |
| Lease liability (Note 5) | | - | 82,325 | | (14,380) | 67,945 | 14,966 |
| Subscription liability (Note 6) | | - | 165,537 | | (52,402) | 113,135 | 55,132 |
| Unamortized premium 2016 Unlimited Tax Library | | | | | | | |
| Refunding Bonds | | 384,091 | - | | (128,030) | 256,061 | 128,030 |
| Compensated absences | | 2,545,966 | 3,203,368 | | (2,895,738) | 2,853,596 | 2,282,876 |
| Total governmental activities | \$ | 8,195,057 | \$ 3,451,230 | \$ | (4,330,550) | \$ 7,315,737 | \$ 3,776,004 |

Notes to Financial Statements

| | Beginning | | | Ending | Due Within |
|---|-------------------------|------------|----------------|--------------|--------------|
| | Balance | Additions | Deductions | Balance | One Year |
| Business-type activities | | | | | |
| General obligation bonds \$4,905,000 2014 Ice Arena Refundi installments of \$450,000 to \$520,000 through June 1, 2024, interest at 2.4% | ng Bonds, \$ 520,000 | \$- | \$ (520,000) | \$- | \$- |
| \$9,075,000 2015 Senior Complex R Facility Refunding Bonds, installments of \$850,000 to \$1,020,000 through October 1, 2025, interest at 2.29% | ecreation 3,000,000 | | (980,000) | 2,020,000 | 1,000,000 |
| Total business-type activities general obligation bonds | 3,520,000 | - | (1,500,000) | 2,020,000 | 1,000,000 |
| Compensated absences | 59,205 | 116,859 | (104,922) | 71,142 | 71,142 |
| Total business-type activities | \$ 3,579,205 | \$ 116,859 | \$ (1,604,922) | \$ 2,091,142 | \$ 1,071,142 |

Annual debt service requirements to maturity for general obligation bonds are as follows:

| | Governmental Activities | | | | Business-ty | pe Ao | ctivities |
|----------------------|-------------------------|-------------------------------------|----------|-----------------------------|-----------------------------------|-------|-----------------------|
| Year Ended June 30, | Principal | | Interest | | Principal | | Interest |
| 2025 2026 2027 | \$ | 1,295,000 1,340,000 1,390,000 | \$ | 121,700 75,700 27,800 | \$ 1,000,000 1,020,000 - | \$ | 34,808 11,679 - |
| | \$ | 4,025,000 | \$ | 225,200 | \$ 2,020,000 | \$ | 46,487 |

All general obligation bonded debt is supported by the City's full faith and credit. Interest is payable on all obligations semi-annually. Principal is paid on an annual basis.

Compensated absences are generally liquidated by the general fund, parks, recreation, and cultural services special revenue fund, library special revenue fund, and the water and sewer enterprise fund.

Notes to Financial Statements

11. RISK MANAGEMENT

The City is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The City has purchased commercial insurance for employee medical benefit claims, property and casualty claims, and for vehicle and contractor equipment damage claims. The City participates in the Michigan Municipal League (MML) risk pool for claims relating to workers' compensation. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past five fiscal years.

The Michigan Municipal League risk pool program operates as a common risk-sharing management program for local units of government in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

The City estimates the liability for general liability claims that have been incurred through the end of the fiscal year, including claims that have been reported as well as those that have not yet been reported, as follows:

| Fiscal Year Ended June 30, | | | | | |
|----------------------------|----------------------|--|--|--|--|
| 2024 | 2023 | | | | |
| \$ 613,117 | \$ 599,703 | | | | |
| 23,708 (546,375) | 114,944 (101,530) | | | | |
| \$ 90,450 | \$ 613,117 | | | | |
| | • | | | | |

12. PROPERTY TAXES

Property taxes attach as an enforceable lien on property as of the date they are levied. City, county operating, ISD, community college, and 50% of school taxes are levied and due July 1 and become delinquent after August 31. Non-operating county taxes and the balance of school taxes are levied and due December 1 and become delinquent after February 14. In March, taxes on real property still delinquent are purchased by the County's tax revolving funds. Collections of ISD, community college, school, and county taxes and remittances are accounted for in the tax custodial fund. City property tax revenues are recognized in the fiscal year for which the taxes are levied.

The City is permitted by charter and state law to levy taxes up to \$6.50 per \$1,000 of assessed valuation for general operations other than the payment of principal and interest on long-term debt. The tax rate to finance general governmental services other than the payment of principal and interest on long-term debt for the year ended June 30, 2024 was \$4.7505 per \$1,000 of taxable value.

Notes to Financial Statements

13. TAX ABATEMENTS

The City received reduced property tax revenues during fiscal year 2024 as a result of industrial facilities tax exemptions (IFT's) and Brownfield Redevelopment agreements.

The IFT's were entered into based upon the Plant Rehabilitation and Industrial Development Districts Act, (known as the Industrial Facilities Exemption), PA 198 of 1974, as amended. IFT's provide a tax incentive to manufacturers to enable renovation and expansion of aging facilities, assist in the building of new facilities, and to promote the establishment of high tech facilities. Properties qualifying for IFT status are taxed at 50% of the millage rate applicable to other real and personal property in the City. The abatements amounted to approximately \$331,000 in reduced City tax revenues for fiscal year 2024.

Brownfield Redevelopment Agreements are granted in the State of Michigan under the Brownfield Redevelopment Act, PA 381 of 1996, as amended, and are intended to promote the redevelopment of properties with presence or perception of contamination. Under this act, a municipality may create a Brownfield Redevelopment Authority to develop and implement Brownfield projects. Tax increment financing may be used as a tool for property redevelopment. The abatements amounted to approximately \$224,000 in reduced City tax revenues for fiscal year 2024.

14. PENSION PLAN - AGENT MULTIPLE-EMPLOYER PLAN

General Information About the Plan

Plan Description. The City's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. The City participates in the Municipal Employees Retirement System (MERS) of Michigan. MERS is an agent multiple-employer, statewide public employee pension plan established by the Michigan Legislature under Public Act 135 of 1945 and administered by a nine member Retirement Board. MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the MERS website at www.mersofmich.com.

Employees Covered by Benefit Terms. At the December 31, 2023 valuation date, plan membership consisted of the following:

| Inactive employees or beneficiaries currently receiving benefits | 235 |
|--|-----|
| Inactive employees entitled to but not yet receiving benefits | 58 |
| Active employees | 120 |
| | |
| Total membership | 413 |
| | |

Notes to Financial Statements

Contributions and Benefits Provided

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by the MERS Retirement Board. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. In addition, the employer may establish contribution rates to be paid by its covered employees. For the year ended June 30, 2024, employer contribution amounts for closed plans were based on projected payroll and for open plans were based on a percentage of payroll.

Employee contribution amounts or rates and benefits provided, by division/bargaining unit, were as follows for the year ended June 30, 2024:

- General Nonunion (Administrative Staff) Retirement benefits for employees are calculated as 2.5 percent of the employee's final three-year average salary times the employee's years of service with a retirement maximum benefit of 80 percent of final average compensation. Normal retirement age is 60 with early retirement at 55 with 25 years of service (unreduced), 55 with 15 years of service (reduced), or 50 with 25 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits after meeting the vesting requirements for a regular pension. The vesting requirements are waived for duty-connected death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions plus any accumulated interest. Members contribute 4.48 percent of their salary to fund benefits. The defined benefit plan was closed to new hired members of this group effective May 1, 2006.
- **POLC** Retirement benefits for employees are calculated as 2.8 percent of the employee's final three-year average salary times the employee's years of service with a retirement maximum benefit of 80 percent of final average compensation. Normal retirement age is 60 with early retirement at 55 with 25 years of service (unreduced) or 55 with 15 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 20 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits after meeting the vesting requirements for a regular pension. The vesting requirements are waived for duty-connected death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members contribute 9.24 percent of their salary to fund benefits. The defined benefit plan was closed to new hired members of this group effective May 1, 2006.

- *Fire Local 3232* Retirement benefits for employees are calculated as 2.5 percent of the employee's final three-year average salary times the employee's years of service with a retirement maximum benefit of 80 percent of final average compensation. Normal retirement age is 60 with early retirement at 50 with 25 years of service (unreduced) or 55 with 15 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members contribute 6.33 percent of their salary to fund benefits. The defined benefit plan was closed to new hired members of this group effective June 1, 2009.
- General Union (Police Clerks) Retirement benefits for employees are calculated as 2.5 percent of the employee's final three-year average salary times the employee's years of service with a retirement maximum benefit of 80 percent of final average compensation. Normal retirement age is 60 with early retirement at 50 with 25 years of service (reduced) or 55 with 15 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members contribute 3.89 percent of their salary to fund benefits. The defined benefit plan was closed to new hired members of this group effective October 1, 2011.
- General Teamster (MAPE) Retirement benefits for employees are calculated as 2.25 percent of the employee's final five-year average salary times the employee's years of service with a retirement maximum benefit of 80 percent of final average compensation. Normal retirement age is 60 with early retirement at 50 with 25 years of service (reduced) or 55 with 15 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members contribute 2.45 percent of their salary to fund benefits. The defined benefit plan was closed to new hired members of this group effective December 1, 2006.

- Library Retirement benefits for employees are calculated as 1.7 percent of the employee's final five-year average salary times the employee's years of service. Normal retirement age is 60 with early retirement at 50 with 25 years of service (reduced) or 55 with 15 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits after meeting the vesting requirements for a regular pension. The vesting requirements are waived for duty-connected death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members contribute 3 percent of their salary under \$4,200 and 5 percent over \$4,200 to fund benefits. The defined benefit plan was closed to new hired members of this group effective July 1, 2007.
- Appointed Officials Retirement benefits for employees are calculated as 2.5 percent of the employee's final three-year average salary times the employee's years of service with a retirement maximum benefit of 80 percent of final average compensation. Normal retirement age is 60 with early retirement at 55 with 25 years of service (unreduced), 55 with 15 years of service (reduced), or 50 with 25 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for duty-connected death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members contribute 2.43 percent of their salary to fund benefits. The defined benefit plan was closed to new hired members of this group effective May 1, 2006.
- Dispatchers Retirement benefits for employees are calculated as 2.5 percent of the employee's final three-year average salary times the employee's years of service with a retirement maximum benefit of 80 percent of final average compensation. Normal retirement age is 60 with early retirement at 50 with 25 years of service (unreduced) or 55 with 15 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members contribute 4.11 percent of their salary to fund benefits. The defined benefit plan was closed to new hired members of this group effective September 1, 2011.

- **COAM** Retirement benefits for employees are calculated as 2.5 percent of the employee's final three-year average salary times the employee's years of service with a retirement maximum benefit of 80 percent of final average compensation. Normal retirement age is 60 with early retirement at 50 with 25 years of service (unreduced) or 55 with 15 years of service (reduced). The vesting period is 10 years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits after meeting the vesting requirements for a regular pension. The vesting requirements are waived for duty-connected death benefits, and the minimum benefit is 25 percent of the deceased members' final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members contribute 6.44 percent of their salary to fund benefits.
- *HA-POLC* Members of this class of employees are eligible for a hybrid defined benefit defined contribution plan. These benefits are established by resolution of the City and negotiation with the collective bargaining unit representing these employees. Retirement benefits for employees participating in the hybrid plan are calculated as 1.5 percent of the employee's final three-year average salary times the employee's credited years of service. Normal retirement age is 60 with early retirement at 55 with 25 years of service (unreduced). The vesting period is six years. Employees are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction with duty disability no less than 25 percent of the member's final average compensation. Death benefits are computed in the same manner as a regular retirement allowance and may be payable to a spouse or children. Employees are eligible for nonduty death benefits after meeting the vesting requirements for a regular pension. The vesting requirements are waived for duty-connected death benefits, and the minimum benefit is 25 percent of the deceased member's final average compensation. An employee who leaves service before vesting withdraws his or her contributions, plus any accumulated interest. Members of this group are not required to contribute to fund benefits.

Net Pension Liability. The City's net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation Salary increases Investment rate of return

2.50%3.00% in the long-term6.93%, net of investment and administrative expense including inflation

Notes to Financial Statements

The base mortality tables used are constructed as described below and are based on are amount weighted sex distinct rates:

- Pre-retirement mortality based on 100% of Pub-2010 Juvenile Mortality Tables for ages 0-17, 100% of PubG-2010 Employee Mortality Tables for Ages 18-80, and 100% of PubG-2010 Healthy Retiree Tables for ages 81-120
- Non-disabled retired plan members and beneficiaries mortality based on 106% of Pub-2010 Juvenile Mortality Tables for ages 0-17, 106% of PubG-2010 Employee Mortality Tables for Ages 18-49, and 106% of PubG-2010 Healthy Retiree Tables for ages 50-120
- Disabled retired plan members mortality based on 100% of Pub-2010 Juvenile Mortality Tables for ages 0-17, and 100% of PubNS-2010 Disabled Retiree Tables for ages 18-120

The actuarial assumptions used in the December 31, 2023 valuation were based on the results of the most recent actuarial experience study of 2014-2018.

Long-term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Long-term Expected Real Rate of Return | Expected Money- Weighted Rate of Return |
|--------------------------------------|----------------------|--|--|
| | 60.0% | 4 500/ | 2 70% |
| Global equity | 60.0% | 4.50% | 2.70% |
| Global fixed income | 20.0% | 2.00% | 0.40% |
| Private investments | 20.0% | 7.00% | 1.40% |
| | 100.0% | | |
| Inflation | | | 2.50% |
| Dedicated gains adjustment | | | -0.07% |
| Administrative expenses netted above | | | 0.25% |
| Investment rate of return | | | 7.18% |

In February 2022, the MERS Retirement Board adopted a Dedicated Gains Policy. The purpose of the Policy is to automatically reduce the assumed rate of investment return for annual actuarial valuation purposes if the plan year's market value of investment income exceeds the expected investment income. Investment performance measured for the one-year period ending December 31, 2023 resulted in current year excess gains for use in lowering the assumed rate of investment return, as reflected above.

Notes to Financial Statements

Discount Rate. The discount rate used to measure the total pension liability as of December 31, 2023 was 7.18% (down from 7.25% at December 31, 2022). The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability

The components of the change in the net pension liability are summarized as follows:

| | Total Pension Liability (a) | Plan Fiduciary Net Position (b) | Net Pension Liability (a) - (b) |
|--|-----------------------------------|---------------------------------------|---------------------------------------|
| Balances at December 31, 2022 | \$ 123,096,970 | \$ 74,398,767 | \$ 48,698,203 |
| Changes for the year: | | | |
| Service cost | 1,301,708 | - | 1,301,708 |
| Interest | 8,698,248 | - | 8,698,248 |
| Differences between expected and | | | |
| actual experience | 3,297,799 | - | 3,297,799 |
| Changes in assumptions | 946,656 | - | 946,656 |
| Employer contributions | - | 5,357,811 | (5,357,811) |
| Employee contributions | - | 451,944 | (451,944) |
| Net investment income | - | 8,214,905 | (8,214,905) |
| Benefit payments, including refunds of | | | |
| employee contributions | (7,544,009) | (7,544,009) | - |
| Administrative expense | - | (173,037) | 173,037 |
| Net changes | 6,700,402 | 6,307,614 | 392,788 |
| Balances at December 31, 2023 | \$ 129,797,372 | \$ 80,706,381 | \$ 49,090,991 |

Changes in assumptions. Amounts reported as changes in assumptions resulted from a decrease in the assumed rate of return from 7.00% to 6.93%.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the City, calculated using the discount rate of 7.18%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1% lower (6.18%) or 1% higher (8.18%) than the current rate:

| | 1% Decrease (6.18%) | Current Discount Rate (7.18%) | 1% Increase (8.18%) |
|------------------------------|------------------------|-------------------------------------|------------------------|
| City's net pension liability | \$ 64,001,122 | \$ 49,090,991 | \$ 36,593,303 |

Notes to Financial Statements

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Plan financial statements.

Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2024, the City recognized pension expense of \$7,067,177. The City reported deferred outflows/inflows of resources related to pensions from the following sources:

| | 0 | Deferred Outflows of Resources | | Outflows of Inflows of | | utflows of Inflows | | (1 | et Deferred Outflows nflows) of Resources |
|--|----|--------------------------------------|----|------------------------|----|--------------------|--|----|--|
| Difference between expected and | | | | | | | | | |
| actual experience | \$ | 2,198,533 | \$ | 533,421 | \$ | 1,665,112 | | | |
| Changes in assumptions | | 631,104 | | - | | 631,104 | | | |
| Net difference between projected and actual | | | | | | | | | |
| earnings on pension plan investments | | 3,823,172 | | - | | 3,823,172 | | | |
| | | 6,652,809 | | 533,421 | | 6,119,388 | | | |
| Contributions subsequent to the measurement date | | 677,489 | | - | | 677,489 | | | |
| | | | | | | | | | |
| Total | \$ | 7,330,298 | \$ | 533,421 | \$ | 6,796,877 | | | |

The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability for the year ending June 30, 2025. Other amounts reported as deferred outflows/inflows of resources related to the pension will be recognized in pension expense as follows:

| Year Ended June 30, | | Amount | | | |
|------------------------|-----------|-----------|--|--|--|
| | | | | | |
| 2025 | \$ | 1,558,961 | | | |
| 2026 | | 2,793,138 | | | |
| 2027 | 2,345,314 | | | | |
| 2028 | | (578,025) | | | |
| Total | \$ | 6,119,388 | | | |

Payable to the Pension Plan. At June 30, 2024, the City had \$138,902 payable for contributions to the pension plan.

The net pension liability is generally liquidated by the general fund and the water and sewer enterprise fund.

Notes to Financial Statements

15. DEFINED CONTRIBUTION PENSION PLAN

Effective May 1, 2006, December 1, 2006, July 1, 2007, June 1, 2009, September 1, 2011, and October 1, 2011, all new administrative, MAPE, library, full-time firefighter employees, dispatchers, and police clerks, respectively, will participate in the MERS defined contribution (DC) program. Administrative employees hired prior to May 1, 2006 had the irrevocable option to transfer from the defined benefit (DB) program to the DC program on December 1, 2006. MAPE employees hired prior to December 1, 2006 had an irrevocable option to transfer from the DB program to the DC program on June 1, 2007.

The City and each member contribute a percentage of eligible earnings to an individual account established for each participant. For the administrative and MAPE groups, the City's contribution rate is 9 percent, and the employee's contribution rate is 3 percent. For the dispatch and fire groups, the City's contribution rate is 10 percent, and the employee's contribution rate is 6 percent. For the police clerks group, the City's contribution rate is 8 percent, and the employee's contribution rate is 6 percent. For the library group, the City's contribution rate is 6 percent, and the employee's contribution rate is 6 percent.

All contributions are remitted to a third-party plan administrator. The DC plan maintains a schedule of vesting with the participants becoming fully vested upon completion of seven years of continuous service. The contribution requirements of plan members are established and may be amended by the City Council in accordance with city policies, union contracts, and MERS plan provisions. There were 176 members participating in the DC plan as of June 30, 2024. During the year ended June 30, 2024, the City contributed \$1,046,720 to the plan.

16. OTHER POSTEMPLOYMENT HEALTH BENEFITS

Plan Administration. The City provides healthcare benefits to most full-time employees upon retirement through a single employer postemployment benefit plan. The City includes pre-Medicare retirees and their spouses in its insured healthcare plan. The City purchases Medicare supplemental insurance for retirees eligible for Medicare. This healthcare benefit plan is closed to all administrative employees hired after May 1, 2006, MAPE employees hired after December 1, 2006, full-time firefighter employees hired after June 1, 2009, dispatchers hired after September 1, 2011, police clerks hired after October 1, 2011, POLC employees hired after April 1, 2012, and COAM officers promoted into the Commander bargaining group on or after July 1, 2021, will bring with them the retirement healthcare which they qualify for in the police officer group. These employees are enrolled into an individual retiree healthcare savings account. The benefits are provided under collective bargaining agreements. The plan does not issue a separate stand-alone financial statement. Administrative costs are paid by the plan through employer contributions.

The City has created a retiree's health care fund, an other employee benefit trust, in anticipation of pre-funding retiree's health care for employees. The funds set aside are held in a fund authorized by Public Act 149 of the State of Michigan.

Management of the plan is vested in the City Council, which consists of seven elected members.

Notes to Financial Statements

Plans Membership. Membership of the plans consisted of the following at June 30, 2023 (the date of the most recent valuation):

| Inactive plan members receiving or entitled to future benefits | 101 |
|--|-----|
| Active plan members | 85 |
| | |
| Total | 186 |
| | |

Benefits Provided. The City of Novi Retiree Health Care Plan provides healthcare, prescription drug, and vision benefits for retirees and their dependents. Benefits are provided through a third-party insurer, and 80 percent of the cost of benefits is covered by the plan.

Contributions. The City has no obligation to make contributions in advance of when the insurance premiums or benefits are due for payment; in other words, the plan may be financed on a pay-as-you-go basis. Administrative costs of the plan are paid for by the City's Retiree Health Care Benefits Trust fund. Plan participants are required to make co-payments, as noted above. For the year ended June 30, 2024, employer contributions totaled \$84,252, which was entirely comprised of the implicit rate subsidy.

Actuarial Assumptions. The total other postemployment liability was determined by respective actuarial valuations as of June 30, 2023 (and rolled forward to June 30, 2024), using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial cost method | Entry-age normal | | |
|-------------------------------|---|--|--|
| Amortization method | Level dollar | | |
| Remaining amortization period | 15 years, closed | | |
| Asset valuation method | Fair value of assets | | |
| Price inflation | 2.5% | | |
| Salary increases | 3.0% to 9.7%, including inflation | | |
| Investment rate of return | 7.0%, net of OPEB plan investment expense | | |
| Retirement age | Experience-based tables of rates that are specific to the type of eligibility condition | | |
| Mortality | The rates of mortality used for individual members are based upon the sex distinct Pub-2010 tables, as published by the Society of Actuaries, and include a margin for future mortality improvements projected using a fully generational improvement scale. The tables used were as follows: | | |
| | 1) Pre-Retirement Mortality: Sex distinct Pub-2010 General Employees table without adjustment. The base year is 2010 and future mortality improvements are assumed each year using scale MP-2019, as published by the Society of Actuaries. Ninety percent (90%) of active member deaths are assumed to be non-duty deaths | | |

and 10% of the deaths are assumed to be duty related.

Notes to Financial Statements

2) **Healthy Post-Retirement Mortality:** Sex distinct Pub-2010 General Healthy Retiree tables scaled by a factor of 106%. The base year is 2010 and future mortality improvements are assumed each year using scale MP-2019, as published by the Society of Actuaries.

3) **Disability Retirement Mortality:** Sex distinct PubNS-2010 Disabled tables without adjustment. The base year is 2010 and future mortality improvements are assumed each year using scale MP-2019, as published by the Society of Actuaries.

Healthcare cost trend rateNon-Medicare: 7.25%, gradually decreasing to 3.5% in year 15Medicare: 6.50%, gradually decreasing to 3.5% in year 15

Long-term Expected Rate of Return. The long-term expected rate of return on other postemployment benefit plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the other postemployment benefit plan's target asset allocation as of June 30, 2024 (see the discussion below of the investment allocation policy) are summarized in the following table:

| Asset Class | Target Allocation | Long-term Expected Real Rate of Return | Expected Money- Weighted Rate of Return |
|---------------------------|----------------------|--|--|
| Global equity | 60.0% | 4.50% | 2.70% |
| Global fixed income | 20.0% | 2.00% | 0.40% |
| Giobal fixed income | | 2.00% | 0.40% |
| Private investments | 20.0% | 7.00% | 1.40% |
| | 100.0% | | |
| Inflation | | | 2.50% |
| Investment rate of return | | | 7.00% |

Notes to Financial Statements

Investment Allocation Policy. It is the objective of the City to diversify its investment portfolios. Assets held in the common cash fund and other investment funds shall be diversified to eliminate the risk of loss resulting from over concentration of assets of a specific maturity, individual financial institution, or type of security. Diversification strategies shall be determined and revised by the City Treasurer from time to time to meet diversification objectives (reducing overall portfolio risk while attaining market or above market average rates of return). It is also understood that temporary deviations from this objective may be necessary from time to time in order to accommodate certain financial goals and obligations. Investment maturities for operating funds shall be scheduled to coincide with projected cash flow needs, taking into account large routine expenditures (payroll, debt service), as well as considering sizable blocks of anticipated revenue (taxes, state revenue sharing payments). It is also desirable to maintain a portfolio that has no more than a 50% concentration in commercial paper. It is also desirable to maintain an individual fund at a 50% concentration in commercial paper or less. However, short-term fluctuations over the 50% target are acceptable within the individual fund as long as the entire portfolio maintains no more than a 50% concentration. Permitted pool accounts will not be limited in use except by the general limitations issued under this policy under diversification and by the liquidity/safety/yield principle. Direct term purchases by the investment officer of repurchase agreements or Bankers Acceptances generally should not exceed 25% of the fund portfolio. CD's shall not be limited in use within the portfolio.

Discount Rate. A single discount rate of 7.00% was used to measure the total other postemployment benefit liability. This single discount rate was based on the expected rate of return on other postemployment benefit plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the other postemployment benefit plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total other postemployment benefit liability.

Rate of Return. For the year ended June 30, 2024, the annual money-weighted rate of return on investments, net of investment expense, was 12.03%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Notes to Financial Statements

Changes in the Net Other Postemployment Benefit Asset. The components of the change in the net other postemployment benefit asset are summarized as follows:

| | Total OPEB Liability (a) | an Fiduciary let Position (b) | Ne | t OPEB Asset (a) - (b) |
|--|--------------------------------|-------------------------------------|----|---------------------------|
| Balances at June 30, 2023 | \$ 29,872,880 | \$ 33,974,906 | \$ | (4,102,026) |
| Changes for the year: | | | | |
| Service cost | 243,558 | - | | 243,558 |
| Interest | 2,047,878 | - | | 2,047,878 |
| Differences between expected and | | | | |
| actual experience | (4,619,075) | - | | (4,619,075) |
| Changes in assumptions | 2,052,164 | - | | 2,052,164 |
| Employer contributions | - | 84,252 | | (84,252) |
| Net investment income | - | 4,166,533 | | (4,166,533) |
| Benefit payments, including refunds of | | | | |
| employee contributions | (1,478,520) | (1,478,520) | | - |
| Administrative expense | - | (6,500) | | 6,500 |
| Net changes | (1,753,995) | 2,765,765 | | (4,519,760) |
| | | | | |
| Balances at June 30, 2024 | \$ 28,118,885 | \$ 36,740,671 | \$ | (8,621,786) |

Changes in assumptions. Amounts reported as changes in assumptions resulted from changes in the healthcare cost trend rates.

Sensitivity of the Net OPEB Asset to Changes in the Discount Rate. The following presents the net OPEB asset of the City, calculated using the discount rate of 7.00%, as well as what the City's net OPEB asset would be if it were calculated using a discount rate that is 1% lower (6.00%) or 1% higher (8.00%) than the current rate:

| | 1% Decrease (6.00%) | | Current Discount (7.00%) | | 1% Increase (8.00%) | |
|-----------------------|------------------------|-------------|--------------------------------|-------------|------------------------|--|
| City's net OPEB asset | \$ | (5,137,534) | \$ | (8,621,786) | \$ (11,519,449) | |

Notes to Financial Statements

Sensitivity of the Net OPEB Asset to Changes in the Healthcare Cost Trend Rates. The following presents the net OPEB asset of the City, calculated using the healthcare cost trend rates as follows:

- Non-Medicare: Initial rate of 7.25%, graded down to 3.50% in year 15, as well as what the City's net OPEB asset would be if it were calculated using a healthcare cost trend rate that is 1% lower (6.25% graded down to 2.50% over 12 years) or 1% higher (8.25% graded down to 4.50% over 12 years) than the current rate.
- Medicare: Initial rate of 6.50%, decreasing 0.25% per year to a 3.50% long-term rate, as well as what the City's net OPEB asset would be if it were calculated using a healthcare cost trend rate that is 1% lower (5.50% graded down to 2.50%) or 1% higher (7.50% graded down to 4.50%) than the current rate.

| | | Current Healthcare Cost | |
|-----------------------|-----------------|----------------------------|----------------|
| | 1% Decrease | Trend Rate | 1% Increase |
| City's net OPEB asset | \$ (11,897,951) | \$ (8,621,786) | \$ (4,661,296) |

Other Postemployment Benefit Expense and Deferred Outflows/Inflows of Resources Related to Other Postemployment Benefits. For the year ended June 30, 2024, the City recognized other postemployment benefit expense of \$(1,878,696). At June 30, 2024, the City reported deferred outflows and inflows of resources related to other postemployment benefits from the following sources:

| | _ | Deferred Dutflows of Resources | Deferred Inflows of Resources | (| et Deferred Outflows Inflows) of Resources |
|---|----|--------------------------------------|-------------------------------------|----|---|
| Difference between expected and actual experience | \$ | 117,551 | \$ 5,131,635 | \$ | (5,014,084) |
| Changes in assumptions Net difference between projected and actual earnings on other postemployment benefit | | 2,439,642 | - | | 2,439,642 |
| plan investments | | 162,417 | - | | 162,417 |
| Total | \$ | 2,719,610 | \$ 5,131,635 | \$ | (2,412,025) |

The net other postemployment benefit asset is generally liquidated by the general fund and the water and sewer fund.

Notes to Financial Statements

Amounts reported as deferred outflows and inflows of resources related to other postemployment benefits will be recognized in other postemployment benefits expense through annual amortization as follows:

| Year Ended June 30, | Amount |
|------------------------------|--|
| 2025 2026 2027 2028 | \$ (1,604,912) 293,029 (732,678) (367,464) |
| | \$ (2,412,025) |

17. NET INVESTMENT IN CAPITAL ASSETS

The composition of the net investment in capital assets as of June 30, 2024, was as follows:

| | Governmental Activities | Business-type Activities | Component Units |
|---|----------------------------|-----------------------------|--------------------|
| Capital assets: | | | |
| Capital assets not being depreciated/amortized | \$ 58,975,987 | \$ 19,623,042 | \$ 35,000 |
| Capital assets being depreciated/amortized, net | 153,313,826 | 160,432,759 | 3,648,956 |
| | 212,289,813 | 180,055,801 | 3,683,956 |
| Related debt: | | | |
| Bonds payable | 4,025,000 | 2,020,000 | - |
| Lease liability | 67,945 | - | - |
| Subscription liability | 113,135 | - | - |
| Unamortized bond premium | 256,061 | - | - |
| Advance from primary government | - | - | 2,356,157 |
| Less: unamortized deferred charge on refunding | (235,490) | - | - |
| Construction related payables | 2,042,233 | 1,860,660 | - |
| | 6,268,884 | 3,880,660 | 2,356,157 |
| | | | |
| Net investment in capital assets | \$ 206,020,929 | \$ 176,175,141 | \$ 1,327,799 |

Notes to Financial Statements

18. OPIOID SETTLEMENT

The City is part of a \$21 billion nationwide settlement reached in July 2021 to resolve all Opioids litigation brought by states and local political subdivisions against the three largest pharmaceutical distributors: McKesson, Cardinal Health, and AmerisourceBergen (Distributors), and a \$5 billion nationwide settlement with manufacturer Janssen Pharmaceuticals, Inc. and its parent company Johnson & Johnson (Janssen). The term of the settlement varies by entity; however, the City expects to receive eighteen (18) installments from the Distributors with the first two installments being paid early in 2023 and the remaining 16 installments expected to be made annually beginning in 2024. Additionally, the City expects to receive eleven (11) installments from Janssen with the first five installments being paid early in 2023 and the remaining installments expected to be made annually beginning in 2026. The City is currently allocated approximately 0.192% of the total State of Michigan local unit settlement and the total amount of the settlement is expected to be \$233,141 and \$54,803 from the Distributors and Janssen, respectively.

In 2022, additional settlements with pharmacies and manufacturers were announced, including CVS, Walgreens, Walmart, Allergan, and Teva, and the associated state-subdivision agreement was finalized in 2023. In 2023, additional settlements with Mallinckrodt and Meijer were announced. The term of the settlement varies by pharmacy and manufacturer; however, the City expects to receive installment payments beginning in 2024. The total amount of these settlements is expected to be \$247,286. Additional settlements with other pharmacies and manufacturers may be forthcoming as well. However, as of June 30, 2024, the amounts to be allocated to and collected by the City were not able to be determined, and as such, no amounts have been reported related to these settlements in the financial statements.

The receivable for the various settlement agreements was recorded at the net present value, using a discount rate for payments to be received subsequent to 2024 of 3%. The net present value of the combined settlement payments to be received as of June 30, 2024 is \$344,231.

19. ADJUSTMENTS TO BEGINNING FUND BALANCE

Under GASB Statement No. 100, *Accounting Changes and Error Corrections*, the City is required to disclose changes to or within the financial reporting entity. For the year ended June 30, 2024, the City had the following adjustments to beginning fund balance:

| | ocal Street Special venue Fund | Nonmajor overnmental Funds |
|--|--------------------------------------|----------------------------------|
| Fund balances, beginning of year, as previously reported Change within the financial reporting entity - | \$ 1,092,449 | \$ 33,338,197 |
| Change from major to nonmajor fund | (1,092,449) | 1,092,449 |
| Fund balances, beginning of year, as adjusted | \$ - | \$ 34,430,646 |

The City previously reported the local street special revenue fund as major. The local street special revenue fund no longer meets the quantitative threshold for major funds in accordance with GAAP for the year ended June 30, 2024.

MERS Agent Multiple-Employer Defined Benefit Pension Plan

Notes to the Schedule of Changes in the City's Net Pension Liability and Related Ratios

The amounts presented for each fiscal year were determined as of December 31 of the preceding year.

The significant changes in benefit terms for the year ended June 30, 2016 were as follows:

• Employee contributions for the Fire Local 3232 employees decreased from 8.83% to 6.33%.

The significant changes in assumptions for the year ended June 30, 2016 were as follows:

- The mortality table was adjusted to reflect longer lifetimes.
- The assumed annual rate of investment return, net of all expenses, was lowered from 8% to 7.75%.
- The asset smoothing was changed from 10 to 5 years.
- The amortization period was moved to a fixed period amortization for the December 31, 2014 annual valuations.

The significant changes in assumptions for the year ended June 30, 2020 were as follows:

- The investment rate of return assumption decreased from 7.75% to 7.35%.
- The assumed rate of wage inflation decreased from 3.75% to 3.00%.

The significant changes in assumptions for the year ended June 30, 2021 were as follows:

• There were updates to demographic assumptions, including adjustments to the following actuarial assumptions: mortality, retirement, disability, and termination rates.

The significant changes in assumptions for the year ended June 30, 2022 were as follows:

• The assumed rate of return decreased from 7.35% to 7.00%.

The significant changes in assumptions for the year ended June 30, 2024 were as follows:

• The assumed rate of return decreased from 7.00% to 6.93%.

Notes to the Schedule of Changes in the City's Net Other Postemployment Benefit Liability (Asset) and Related Ratios

GASB 74 was implemented in fiscal year 2017. This schedule is being built prospectively. Ultimately, 10 years of data will be presented.

The June 30, 2018 changes in assumptions are due to the following:

- Removal of the Excise Tax load to the liabilities, to account for future excise taxes for Cadillac plans under the Patient Protection and Affordable Care Act (PPACA).
- Resetting the health care cost trend assumption.
- The long-term rate of investment return used for GASB Statement Nos. 74 and 75 reporting purpose was 7.25%. For purposes of the June 30, 2017 GASB Statement No. 74 report the long-term rate of investment return used was 7.50%.

The June 30, 2020 changes in assumptions are due to the following:

- A reduction in the valuation interest rate assumption from 7.50% to 7.00%.
- Resetting the initial health care cost trend assumption to 8.25%.
- Updating the mortality tables and other demographic assumptions to be consistent with the MERS pension assumptions.

The June 30, 2022 changes in assumptions are due to the following:

- Updating the mortality tables and other demographic assumptions to be consistent with the MERS pension assumptions.
- Updating the health care cost trend rates.

The June 30, 2024 changes in assumptions are due to the following:

• Updating the health care cost trend rates.

Notes to Schedule of Contributions

| Valuation date | Actuarially determined contribution rates are calculated as of June |
|----------------|---|
| | 30 that is 12 months prior to the beginning of the fiscal year for |
| | which the contributions are reported. |

Methods and assumptions used to determine contribution rates (2023, based on the 6/30/2021 actuarial valuation):

| Actuarial cost method | Entry-age normal |
|-------------------------------|--|
| Amortization method | Level dollar |
| Remaining amortization period | 15 years, closed |
| Asset valuation method | 5-year smoothed fair value |
| Price inflation | 2.5% |
| Salary increases | 3.0% to 9.7%, including 3.0% wage inflation |
| Investment rate of return | 7.0%, net of OPEB plan investment expense |
| Retirement age | Experience-based tables of rates that are specific to the type of eligibility condition |
| Mortality | Healthy Pre-Retirement Mortality: Sex distinct Pub-2010 General Employees table without adjustment. The base year is 2010 and future mortality improvements are assumed each year using scale MP-2019, as published by the Society of Actuaries. Ninety percent (90%) of active member deaths are assumed to be non-duty deaths and 10% of the deaths are assumed to be duty related. |
| | Healthy Post-Retirement Mortality: Sex distinct Pub-2010 General Healthy Retiree tables scaled by a factor of 106%. The base year is 2010 and future mortality improvements are assumed each year using scale MP-2019, as published by the Society of Actuaries. |
| | Disability Retirement Mortality: Sex distinct PubNS-2010 Disabled tables without adjustment. The base year is 2010 and future mortality improvements are assumed each year using scale MP-2019, as published by the Society of Actuaries. |
| Healthcare cost trend rate | Non-Medicare (Pre-65): Initial trend of 7.50%, gradually decreasing to 3.50% in year 12 Medicare (post-65): Initial trend of 6.25%, gradually decreasing to 3.50% in year 12 |
| Aging factors | Based on the 2013 SOA Study "Health Care Costs - From Birth to Death" |

Nonmajor Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Major Street Fund - This fund is used to account for expenditures associated with the construction and maintenance needs of the major street portion (as defined by State Act 51) of the City's street network. Of the 192.34 total centerline miles that make up the City of Novi road network, the City has 45.2 centerline miles of major streets. Financing is primarily provided by the City's share of state gas and weight taxes.

Local Street Fund - This fund is used to account for expenditures associated with the construction and maintenance needs of the local street portion (as defined by State Act 51) of the City's street network. Of the 195.69 total centerline miles that make up the City of Novi road network, the City has 149.78 centerline miles of local streets. Financing is primarily provided by the City's share of state gas and weight taxes.

Municipal Streets Fund - This fund is used to enhance the Major and Local Street Funds and to provide matching funds for county roads. This fund accounts for a City Charter-authorized property tax millage to supplement the Major and Local Street Funds that have limited resources due to the reliance on the state gas and weight tax.

Parks, Recreation, and Cultural Services Fund - The departments within this fund administer all parks, recreation, and cultural services operations, including strategic direction, policy development, resource identification, and serves as the liaison to the Parks, Recreation, and Cultural Services Commission and the Novi Parks Foundation.

Tree Fund - This fund was established to cover most of the cost of city tree replacement and future maintenance costs. Proceeds vary from year to year and come from fines, fees paid by developers, and street tree maintenance charges pursuant to the City Charter and Code of Ordinances.

Drain Revenue Fund - This fund includes a special property tax millage that was approved for the purpose of improving and maintaining the City's regional and arterial detention system.

Community Development Block Grant (CDBG) Fund - This fund records federal grant monies passed through to the City from Oakland County. These funds are used to support the youth assistance program and minor home repair program.

Forfeiture Fund - This fund records all receipts and expenditures relating to federal, state, local, and OWI, forfeited and legally restricted, funds relating to narcotic trafficking, money laundering, state laws, and ordinances.

Library Fund - Novi Public Library (the "Library") provides the resources and programs to support the educational, cultural, informational, and recreational needs of its diverse community. The Library supports intellectual freedom and access to information resources for all, while maintaining the privacy of its patrons and providing a safe and secure environment. The Library is funded primarily from property taxes in accordance with a special City Charter millage.

Nonmajor Special Revenue Funds

Library Contribution Fund - In May 2004, the City of Novi, Michigan's library received a generous gift of \$1,000,000 from Charles and Myrtle Walker for use in the replacement or expansion of the then-existing library building. As of January 1, 2014, the legal restrictions on the use of these funds has expired. The library board continues to restrict the use of the funds for improvements to the library. The library board also entered into a Library Building Fund Gift Agreement with the Walker family to encourage additional donations. The Library has continued to receive donations.

Rubbish Collection Fund - On May 23, 2016, City Council approved a contract for the collection of solid waste, recycling, yard waste, and other services. This fund was established to account for the rubbish collection activities.

West Oak Street Lighting Fund - This fund was established by a vote of the City Council to account for a special assessment levy to provide street lighting to West Oak Street.

West Lake Drive Street Lighting Fund - This fund was established by a vote of the City Council to account for a special assessment levy to provide street lighting to West Lake Drive.

Town Center Street Lighting Fund - This fund was established by a vote of the City Council to account for a special assessment levy to provide street lighting to Town Center Street.

Opioid Settlement Fund - This fund was established to track the funds received from the nationwide settlement reached in July 2021 to resolve all Opioids litigation brought by states and local political subdivisions against several major pharmaceutical distributors.

Nonmajor Debt Service Fund

Debt service funds are used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

2008 Library Construction Debt Fund - This fund was established to account for annual debt service payments for a bond that was issued to construct a new library building. The annual debt service is paid from property tax collections authorized by a voter-approved millage.

Nonmajor Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Special Assessment Revolving Fund - This fund is used to account for the construction of capital assets funded in whole or in part by long-term special assessment debt. The City has self-funded previous projects and has elected to maintain the cumulative interest, as well as the initial General Fund contribution in this fund. All future uses of this fund will be determined as part of the City's annual capital improvement plan (CIP).

Gun Range Facility Fund - As of July 1, 2014, the City Council has elected to place the gross revenue from users of the gun range facility (previously in the General Fund) into a separate capital project fund to be used toward planned future capital improvements.

PEG Cable Capital Fund - As of September 2019, the revenues related to PEG Cable have been placed into this separate capital project fund to be used toward planned future capital improvements.

Public Improvement Fund - The fund was established in fiscal year 2024 to set aside General Fund and Parks, Recreation and Culture Fund capital projects that were originally budgeted in the current fiscal year but not spent during the current year. The funds will be set aside in the Public Improvement Fund until and expensed here as the project continues.

Nonmajor Permanent Fund

Drain Perpetual Maintenance Fund - A citizen's committee has been established to oversee the building and maintenance of the drain system. This fund was initially created with allocations from the Drain Fund. Additional revenue has come from tap fees for properties connecting to regional systems. The intent is to build an investment base in which earnings will eventually cover the cost of maintaining the system and reduce or eliminate the need for the Drain Fund millage.

| Sewer(per thousand gallons of water usage) | 4.30 | | 3.40 | 3.60 | 3.60 |

(1) Fewer accounts because the fire line accounts were discontinued in the spring of 2018.

(2) Program eliminated in Fiscal Year 2016.

(3) Lakeshore no-resident vehicle entry fees eliminated in September 2017, no longer tracking.

(4) As of June 30, 2022, department changed the way they calculate the number of seniors served.

Seniors participating in fitness classes are included in the adult classes and leagues in 2022 since programs offered by class and skill, not by age.

(5) The City stopped tracking attendance after June 30, 2022.
