

# MEMORANDUM

**TO:** VICTOR CARDENAS, CITY MANAGER  
**FROM:** TINA GLENN, INTERIM CITY TREASURER  
**CC:** CORTNEY HANSON, CITY CLERK  
**SUBJECT:** QUARTERLY INVESTMENT REPORT – DECEMBER 31, 2025  
**DATE:** JANUARY 28, 2026

---

Attached to this memo is the investment report for the City of Novi as of December 31, 2025. This memo outlines the investment factors and trends that were playing a role in our investment decisions for the reporting period.

## **Nationally**

According to the minutes of the Federal Open Market Committee (FOMC) meetings held on December 9 – 10, 2025, “The information available at the time of the meeting indicated that real gross domestic product (GDP) had expanded moderately over this year. The unemployment rate had edged up and the pace of payroll employment increases had slowed through September, more recent labor market indicators were consistent with these developments. Consumer price inflation had moved up since earlier in the year and remained somewhat elevated.”<sup>1</sup>

According to the Bureau of Labor Statistics News Release, “Both total nonfarm payroll employment (+50,000) and the unemployment rate (4.4 percent) changed little in December, the U.S. Bureau of Labor Statistics reported today. Employment continued to trend up in food services and drinking places, health care, and social assistance. Retail trade lost jobs.”<sup>2</sup>

The City is continuing to invest pursuant to the Investment Policy and the Retirement Health Care Investment Policy. The City’s funds are invested in a variety of instruments including commercial paper, money market accounts, certificates of deposit, agencies, and pooled accounts. The primary focus and order of priority is on safety of capital, liquidity, and lastly return on investment.

## **Risk**

As required by the Governmental Accounting Standard Board, GASB 40 identifies several reporting and disclosure requirements for public funds that are designed to manage and limit risk in deposits and investments. These disclosures are only required as part of the year-end financial statements, the applicable risks are as follows:

**Interest Rate Risk:** Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investment or the government’s cash flows. Disclosure of interest rate risk addresses the exposure of investments to changes in market value as

interest rates increase or decrease from current levels. In accordance with the City investment policy, the City limits its exposure to possible decline in fair market value by controlling duration or maturities. Investment maturities for operating funds shall be scheduled to coincide with projected cash flow needs, considering large routine expenditures (payroll, debt service), as well as considering sizable blocks of anticipated revenue (taxes, state revenue sharing payments).

**Credit Risk:** Credit risk is the risk that the investment counterparty will not fulfill its promise to pay the government when required. There is credit risk associated with the financial institutions, brokers, and investment instruments the City does business with. The City's investment officer must also be held to the highest standards. The City's investment policy utilizes the prudent person rule: "Investments are made with judgment and care - under circumstances then prevailing - which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived." Any commercial paper purchased must be rated within the highest classification established by at least two standard rating services. Obligations of the State or its subdivisions must be rated of investment grade by at least one rating service. Because the State of Michigan does not require collateralization of public funds, the City's policy restricts Certificates of Deposit investments to those with financial institutions that are members of the Federal Deposit Insurance Corporation (FDIC) or the National Credit Union Administration.

**Concentration of Risk:** Governments must disclose any single issuer that comprises more than 5% of the investment value in the portfolio. This disclosure is to ensure that there is proper diversification and not a concentration of public funds with any one issuer. While CD's and commercial paper are being used only occasionally for diversification, the City's funds are primarily invested in guaranteed accounts and treasuries. To reduce concentration risk, the City's investments are diversified amongst several highly rated financial institutions.

### **Investment Report**

Attached is a summary listing of investments by issuer that the City held on December 31, 2025 (excluding Retiree Healthcare and Pension Investments that are not subject to Public Act 20 Investment Limitations).
