

MEMORANDUM

TO: CITY OF NOVI PLANNING COMMISSION
FROM: KIRSTEN MELLEM, PLANNER *KM*
THROUGH: BARBARA MCBETH, AICP, CITY PLANNER
SUBJECT: THOROUGHFARE MASTER PLAN – REVIEW PERIOD
DATE: JUNE 15, 2016

The City of Novi and The Corradino Group present the 2016 Thoroughfare Master Plan (TMP) for review. The Planning Commission is asked to recommend City Council approve the release of the TMP to all the neighboring communities and interested parties for a 63-day review period in conjunction with the Master Plan for Land Use 2016 Update. An executive summary is attached, which provides a quick overview of the TMP. The full report and technical memos are available on the City of Novi website.

During the review period, public comments will be collected by staff and *Community Remarks*, a web-based application. After the 63-day review period, a public hearing will be scheduled by the Planning Commission to hear verbal comments, review the comments collected by staff, and those submitted via *Community Remarks*. Adoption of the plan will not take place until after the review period and public hearing.

The intent in developing a Thoroughfare Master Plan is to establish physical and cultural environments that support and encourage safe, comfortable, and convenient travel by a variety of modes – vehicle, bicycle, or pedestrian. The development of the TMP began in October 2015 resulting in a comprehensive analysis of the multi-modal transportation network in the City of Novi. The TMP incorporates all public input and provides recommendations for the future. It will ultimately provide a guide to the City of Novi in how to address the challenges and opportunities presented by future needs of the community.

C: Peter Auger, City Manager
Victor Cardenas, Assistant City Manager
Charles Boulard, Community Development Director
Rob Hayes, Director of Public Services, City Engineer
Brian Coburn, Engineering Manager
